**Subject:** Zoning variance comment - 338 Allens Ave  
**Date:** Tuesday, October 12, 2021 2:25:17 PM

---

I'm writing regarding the meeting that is taking place tomorrow to review Narragansett Improvement Co.'s request for a variance on the site at 338 Allens Ave.

I ask that the Zoning Board please deny this request for a variance from Narragansett Improvement Co. Though many things are complicated when it comes to healthy, safety, and the environment, it seems to me that because there is a zoning law that prohibits the kind of activities that they are doing - it would be a relatively easy decision to deny.

And if you permit this variance then it diminishes the power and purpose of the zoning ordinance. Denying this request would help the people who live in the community, to lessen the amount of toxic materials in their communities, and it would hopefully set an example for the other polluters who are on Allens Ave.

Thank you
