

## SICK LEAVE ABUSE

### **Applicability**

All full- and part-time, active employees are covered under this policy.

### **Purpose**

To standardize practices and procedures relating to sick leave and to take corrective action when abuse occurs.

### **Policy**

In order to ensure that the City of Providence provides the appropriate and timely response to the citizens of the City of Providence, it is necessary to have all employees report to work every day.

Absent extenuating circumstances as defined by the Director of Human Resources, the following disciplinary procedure will be followed in dealing with absenteeism and the abuse of sick leave:

Employees who are absent from work for more than 3 days are required to provide documentation from a physician or other reasonable evidence as determined by the Director of Human Resources. This documentation is to be presented to the Department Director prior to starting work on the return date.

The discharge of eight (8) sick days (with or without pay) within a four (4) month period will require the employee to provide medical documentation from a qualified physician or other reasonable evidence as determined by the Director of Human Resources. This documentation is to be presented to the Department Director prior to starting work on the return date. This requirement will be in effect for six (6) months. If a continued pattern is present the requirement will remain in effect for an additional ninety (90) days. If the requirement is lifted and there is a repeated instance of four (4) sick days discharged in a four (4) month period, the physician's note requirement will be reinstated. Once again, this would be in effect for six (6) months. If no additional sick leave abuse occurs, the requirement is rescinded. If abuse does occur, further disciplinary action will occur up to and including termination.
