Which doctors, hospitals, and pharmacies can I use?

BlueCHiP for Medicare Group Plus (HMO)
has a network of doctors, hospitals, pharmacies and other providers. If you use providers that are not in our network, the plan may not pay for these services.

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs.

You can see our plan’s provider & pharmacy listings at our website (findadoctor.bcbsri.com/).

Or, call us and we will send you a copy of the provider and pharmacy directories.

What do we cover?
Like all Medicare health plans, we cover everything that Original Medicare covers - and more.

• Our plan members get all of the benefits covered by Original Medicare. For some of these benefits, you may pay more in our plan than you would in Original Medicare. For others, you may pay less.

• Our plan members also get more than what is covered by Original Medicare. Some of the extra benefits are outlined in this booklet.

BlueCHiP for Medicare Group Plus (HMO):
We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

• You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, www.bcbsri.com/medicare.

• Or, call us and we will send you a copy of the formulary.

How will I determine my drug cost?

BlueCHiP for Medicare Group Plus (HMO):
Our plan groups each medication into one of four “tiers.” You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug’s tier and what stage of the benefit you have reached. Later in this document we discuss the benefit stages that occur: Initial Coverage, Coverage Gap, and Catastrophic Coverage.

If you reside in a long-term care facility, you pay the same as at a retail pharmacy.

You may get drugs from an out-of-network pharmacy at the same cost as an in-network pharmacy.
| Coverage Gap | Most Medicare drug plans have a coverage gap (also called the “donut hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches $3,700.

After you enter the coverage gap, you pay 40% of the plan’s cost for covered brand name drugs and 51% of the plan’s cost for covered generic drugs until your costs total $4,950, which is the end of the coverage gap. Not everyone will enter the coverage gap. |
| --- | --- |
| Catastrophic Coverage | After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach $4,950, you pay the greater of:
- 5% of the cost, or
- $3.30 copay for generic (including brand drugs treated as generic) and a $8.25 copayment for all other drugs. |
This information is not a complete description of benefits. Contact the plan for more information. Limitations, copayments, and restrictions may apply. [Benefits, premium and/or co-payments/co-insurance] may change on January 1 of each year. The [formulary, pharmacy network, and/or provider network] may change at any time. You will receive notice when necessary.
