

Delta Dental PPO Plus Premier™ : The “dual” network advantage

Under your Delta Dental PPO Plus Premier dental program, you have the freedom to choose a dentist from either our nationwide “PPO” or “Premier” networks. That’s because a participating Delta Dental dentist may belong to the PPO network, the Premier network, or both. For services that require a coinsurance, however, you’ll have lower out-of-pocket costs when visiting a Delta Dental PPO™ participating dentist. So make sure to ask your dentist which network(s) he or she belongs to before receiving services.

Delta Dental PPO Network

Network of more than 108,000 dentists practicing in over 266,000 dental locations nationwide.

Delta Dental Premier® Network

The nation’s largest network - with more than 154,000 dentists and over 332,000 office locations. That’s three out of every four dentists in the country.

This unique “dual” network program lets you choose a PPO network dentist for optimal cost savings, or access the larger Premier network as a secondary safety net.

Delta Dental Network Advantages

No matter whether you choose a participating PPO or Premier dentist, you’ll still enjoy all our trademark network advantages, including:

- Instant recognition of your Delta Dental ID card - nationwide
- No paperwork, no hassles – network dentists will file claims directly with us on your behalf
- Access to the nation’s largest dental networks

Find a Participating Dentist

To find a participating dentist – or to see if your dentist belongs to the Delta Dental network – log on to our website at www.deltadentalri.com.

You can also visit our website to access your personal benefit and eligibility information or print a copy of your ID card.
