## CITY OF PROVIDENCE

Angel Taveras, Mayor

### Introductory Section

- Letter of Transmittal
- Organizational Chart
- List of City Officials
- GFOA Certificate of Achievement

**Finance Department**  
*"Building Pride In Providence"*

**December 29, 2011**  
**City Council**  
**Providence, Rhode Island**

Honorable Members,

Rhode Island State law requires that all general-purpose, local governments publish a complete set of audited financial statements within six months of the close of each fiscal year. This report fulfills that requirement for the fiscal year ended June 30, 2011.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

Braver PC, Accountants and Advisors, has issued an unqualified ("clean") opinion on the City of Providence, Rhode Island's financial statements for the year ended June 30, 2011. A copy of their independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A is intended to compliment this letter of transmittal and should be read in conjunction with it.

**Profile of the Government**

The capital city of Providence was founded in 1636 and incorporated in 1831. It occupies a total land area of 18.1 square miles and additional 1.9 square miles of water; is located at the head of Narragansett Bay on the Providence River, and is the major population, financial, educational, governmental, industrial center of Rhode Island. Situated on the Boston-Washington Interstate 95 corridor, with proximity to multi-billion markets and multi-million population centers, residents and businesses have ready access to all major forms of transportation, including AMTRAK, Providence & Worcester Railroad, TF Green International Airport, the Port of Providence and Interstates 95 and 195. Multi-modal transportation has most recently been expanded with the opening of Interlink, increasing commuter rail service connections with the Massachusetts Bay Transit Authority.

Providence is ranked first of Rhode Island's cities and towns with a population of 178,042 residents (US Census 2010), up 2.5% from 173,618 (2000 Census.) The demographic profile for the City is as follows: Caucasians 37.6%, Hispanics 38.1%, African Americans 16.0%, Asians 6.4% and Native Americans 1.4%.

The City has a Mayor - Council form of government. A Home Rule Charter was adopted in 1980 and became fully effective on January 3, 1983. The responsibilities of city government include providing a range of services that include: general government, community development, administrative services, public safety, sanitation, public works, planning and development, workforce development, recreation, parks and public education. The City adopts an Annual Budget for the General Fund, which includes the School Department. The legal level of control is by Department.

### **Factors Affecting Financial Condition**

Upon taking office, Mayor Angel Taveras signed an Executive Order creating an independent Municipal Finances Review Panel – including former Auditor General Ernie Almonte, current Auditor General Dennis Hoyle, former Providence Finance Director Alex Prignano and certified public accountant Kenneth Richardson – to conduct a full review of the City's finances. On March 3, 2011, the Panel delivered a report that laid out the full depth of the fiscal crisis facing the City of Providence: a \$70 million structural deficit in FY11 and a \$110 million structural deficit in FY12.

In addressing this unprecedented fiscal storm, Mayor Taveras called upon City stakeholders to come together and put Providence back on firm financial footing. He started with his own office, cutting his own pay 10% and cutting the Mayor's Office budget by 10%. In key City departments, the City laid off 10% of non-union, management employees. The Mayor renegotiated union contracts with City workers, firefighters, police officers and teachers, saving approximately 10% of the value of those contracts in FY 2012 and over \$100 million over the next several years.

Five public schools were closed to address a \$30 million School Department deficit. The FY12 budget cut nearly \$60 million in anticipated spending and was reduced by \$23.3 million compared to the previous year's spending levels. Property tax rates were increased and the motor vehicle exemption was reduced. The City budget also increased fees for parking, mattresses, fire hydrants, master alarm fire boxes and for overnight parking.

The FY12 City Budget also called on the City's seven large tax-exempt institutions to contribute \$9 million – or 10% of what they would otherwise pay in taxes on their property (\$97 million). This represented a \$7.1 million increase from their FY11 voluntary PILOT payment of \$1.9 million. To date, these tax-exempt institutions have not contributed additional payments.

In addition, the General Assembly enacted pension reform of the State retirement system, but has not yet extended these reforms to municipal plans. Providence's pension system has an unfunded accrued liability of \$903,311,298 (Eighty-Fourth Valuation of the Employees' Retirement System of the City of Providence as of June 30, 2011).

The City of Providence continues a slow recovery from a national recession compounded by the foreclosure crisis. People of all ages in poverty in Providence total 25.6% (2010 Census) and Rhode Island's unemployment rate remains in double digits at 10.5%, with that number doubled in some of Providence's neighborhoods (Nov. 2011, [www.dlt.ri.gov](http://www.dlt.ri.gov)). More than 400 homes entered foreclosure in the City of Providence in 2011; a reduction from 574 in 2010.

While manufacturing jobs are projected to continue to leave Rhode Island, employment is projected to increase by nearly 40,000 jobs or 7.8 percent, over the 2008 - 2018 decade with job gains occurring in Health Care & Social Assistance (13,325) and Professional, Scientific & Technical Services (6,332) (Rhode Island's Occupational Outlook for 2018, Rhode Island Department of Labor and Training).

### **Economic Development & New Initiatives**

Economic development is a top priority for the Taveras Administration, with the chief goals of expanding the City's revenue base, creating well-paying and higher-skilled jobs for our residents, and creating a stronger and improved quality of life for our neighborhoods.

The administration has also been keenly focused on:

- Improving the skills of our public school students to prepare a competitive workforce
- Growing our entrepreneurial base by tapping into and retaining our highly educated college and university student population
- Capitalizing on our prominent assets
- Developing stronger partnerships with our local nonprofit institutions and businesses
- Addressing the common obstacles to development, such as access to capital and regulatory concerns.

Mayor Taveras began his term of office in January 2011 by announcing the creation of a super-cabinet position of Director of Economic Development to tackle some of the outcomes of continuing high unemployment, home foreclosures and the national recession.

Following a national search, the Mayor hired multi-business owner and prominent and respected executive, James S. Bennett, of Narragansett, Rhode Island, in mid-September, 2011. Mr. Bennett concurrently serves as the Chairman of the Rhode Island Convention Center Authority, which has similar interests and concerns.

Mr. Bennett has formed a coalition of departments – Art Culture + Tourism, Inspections and Standards, Planning and Development, Bureau of Licenses and Vital Statistics, Workforce Solutions, and the Providence Economic Development Partnership – to address common issues and craft a comprehensive strategy for creating jobs and business growth within our City.

Some of those steps included:

- Expansion of our rapidly emerging knowledge economy, in life science, biotechnology and information technology sectors, primarily clustered in the City's Knowledge District. The establishment of the Brown University Warren Alpert Medical School in the heart of this district has increased the likelihood of attracting R&D and similar activity.

- Expansion of the miles of development along our Working Waterfront and the many acres of activity within the Port of Providence. In mid-October, Sims Metal Management Limited, the world's largest metals and electronic recycling company, established a New England exporting terminal at Allens Avenue, along the City's waterfront.
- Capitalizing on the increased green-sector jobs in Providence's Olneyville and Valley neighborhoods, where more than 1,600 businesses and 20,000 workers are based. The Department is working with federal agencies (HUD and EDA) to access resources for improved infrastructure, particularly in repurposing vacant, industrial buildings and creating new manufacturing to replace those that left for the Pacific Rim.

Since a strong transit system is central to business growth and attraction, we have committed ourselves fully to a progressive mass transportation effort, including:

- Promoting a strong transit system within the downtown, the so-called 'Eds-to-Meds' corridor linking our universities and hospitals and running through the Knowledge District, and to outlying areas. The City has been actively working with the Rhode Island Public Transit Authority to create a streetcar system, including improvements to the busiest bus routes in Rhode Island that traverse the City.
- This work has been augmented with a 3-Phase Downtown Circulator project to improve traffic flow and reduce congestion in and around the heart of the City. We are currently completing the second of these phases.

Because one in four small businesses in the Providence metropolitan area has fewer than nine workers, this Administration has supported the everyday work of our local merchants and retailers, including:

- Expansion of the City's Buy Providence/Buy Art initiative to promote local sales throughout the year.
- Co-hosting a Latino Business Roundtable with the Federal Reserve Bank of Boston to identify the impediments to growing the City's large, dynamic Latino business community, and to address impediments.

Finally, understanding the critical the relationship between an educated workforce and the strength of our economy, Mayor Taveras and his Senior Education Adviser Angela Romans have made education a high economic development priority by:

- Leveraging resources to strengthen our public schools and improve the skills of our students and future workers, including participation in the successful \$50 million Race to the Top grant
- Mayor Taveras' service as Vice Chairman of the US Conference of Mayors Education Subcommittee
- The ongoing establishment of GTECH computer labs in local community centers and libraries across the City and the awarding of 66 Young Explorer computers to Providence students by IBM.
- Establishment of an Education Opportunity Working Group in June, 2011, to meet with educators, community members and other stakeholders to collect data and make recommendations for improving public education in Providence. The recommendations

will be aligned with the Mayor's vision and evidence-based practices, with yearly measurable goals, to make these needed changes.

With particular public-private interest in our rapidly emerging knowledge economy, Mayor Taveras and senior member of his Administration have most recently taken these steps:

- Traveled as part of a statewide executive team, including the Mayor, Governor, Brown University representatives, and legislators to explore best practices in similar districts in Baltimore, Maryland; Pittsburgh, Pennsylvania and Austin, Texas.
- Active involvement in the I-195 Commission, which is managing the development of 22 acres of land uncovered with the relocation of Interstate I-195.
- Participated with IBM Smarter Cities Initiative to identify remedies to regulatory issues and cyber structure improvements needed within the new Knowledge District.
- As a Fellow of the Urban Land Institute, the Mayor has traveled to California, and members of his Administration to London, England to study best practices in urban core development.
- Executed the contract for the \$10 million recapitalization of the Providence Economic Development Partnership US Commerce (HUD) revolving loan program. As an outgrowth of that recapitalization, \$1 million has been set aside for the first-in-the-nation equity investment program, known as the Innovation Investment Program, and a unique \$1 million revolving loan program for new technology and creative arts start-ups.

### **Industrial Parks**

The City has a number of industrial parks and corridors critical to Providence's economy, including the Promenade (known as the Green Corridor), the Working Waterfront and Port of Providence along Allens Avenue, Huntington Park, the ManuCenter, and the Knowledge District (former the Jewelry district.)

These sites remain the centers of industrial activity and manufacturing in Providence, but manufacturing in the districts are no longer dominated by the jewelry manufacturing and heavy industrial activity. With the addition of new manufacturing techniques and products, medical devices, alternative energy, design and information-technology, Providence is retaining its world-class reputation in manufacturing of a new sort.

Economic activity is occurring in each district:

- *The Knowledge District*, which is the area generally defined with the relocation of Interstate 195, and between the busy downtown and our colleges and universities and the medical centers of excellence (RI Hospital, Women and Infants, Warren Alpert Medical School) and numerous research and life-science facilities in addition to biotech firms such as EpiVax, Isis Biopolymer and others.
- *The Port of Providence* already supports 1,500 jobs and the city is aggressively pursuing its ReNEWable Port plan to create 1,000 additional high-skilled, high-paying jobs for area residents.

- *The Promenade*, which runs along the Woonasquatucket River and includes such businesses as American Locomotive Works (ALCO,) United Natural Foods Inc., Umicore, Alteris Renewables, Eco-Let, Rising Sun Mills, Dussault Systemes, and the Steelyard. More than 1,600 companies and 20,000 employees are based in this district.
- *ManuCenter*, a commercial development on Allens Avenue, proximate to the Knowledge District, consists of multiple brick buildings repurposed from former jewelry production sites to such offices as Lifespan's administrative and public relations offices, professional services and public relations firms, a medical research facility, and the home offices of James Winoker Properties.

## **Housing**

Working in partnership with the City's community development corporations and Rhode Island Housing, the City has leveraged approximately \$40 million to improve its housing stock through renovation and new construction.

This past summer, the City closed out its second and third lead-remediation grants, whereby more than 200 units of housing were made lead-safe. The City also began to implement our fourth lead-remediation grant. In partnership with the Rhode Island Office of Energy Resources, the City is using this grant to develop a national model for delivering comprehensive whole home retrofits that combines various funding streams to remediate lead, mold and other health and safety hazards while also implementing energy efficiency upgrades and resident education.

With grant funding from the Healthy Kids Collaborative, the City has also implemented a broad-based initiative to increase enforcement of State lead laws in the City. The grant funds are enabling the City to ensure homes that present clear lead hazards to children are quickly identified. Additionally, the grant is supporting policy and procedure reforms that will prevent instances of poisoning from ever occurring.

The national foreclosure crisis continues to impact Providence. We have been hopeful that new federal programs would be forthcoming to help us address this issue; unfortunately, Congress has not approved the President's Neighborhood Stabilization Program. As a result, we are beginning to examine how we can use limited City housing dollars and existing City and State laws to address the problem of vacant housing and neighborhood revitalization.

## **Redevelopment Initiatives**

The Department of Planning and Development is finalizing an update to the City's Comprehensive Plan, based on the outcomes of the Neighborhood Planning Process. With the completion of this update, the Department will turn to implementing the many initiatives identified through this planning process. Over the last year, the Department received two federal grants that will fund our efforts to revise the City's Zoning Ordinance. With the first grant, the city hired Perkins & Will to evaluate development potential in the Downtown and the Knowledge District, to understand infrastructure limitations and to revise the Zoning Ordinance for the Downtown. Draft zoning language is expected to be forwarded to the City Council in the third quarter of FY12.

Work has begun on the HUD Community Challenge Grant, which will examine the City's five major transit corridors in an effort to understand how to develop zoning regulations that will attract transit-oriented development. Over the 24 months of this project, new zoning regulations will be developed for the rest of the City.

In addition to regulatory change, the plans call for investment in our neighborhoods. The Department is focusing on Olneyville to develop a framework for neighborhood revitalization. Using the success of the Promenade Redevelopment Plan, where the City was able to retain Umicore USA, Inc., grow jobs and ensure the retention of a stable business, the Department is preparing a multifaceted redevelopment plan that is based on job creation and housing redevelopment.

The City's Planning Department is currently in the process of proposing a new Working Waterfront Protection Zone. This zone would protect jobs and encourage economic growth at the Port of Providence. The plan limits all development at the Port to heavy industrial marine-based businesses, prohibits condominiums, residences, restaurants, retail, hotels and all non-marine industrial businesses. The city is aggressively pursuing its ReNEWable Port plan to create high-skilled/high-paying jobs for area residents.

### **Commercial Expansion**

Over the past year, the City has seen growth of both large and small commercial enterprises. We are experiencing an evolution of small commercial businesses in the Downtown as businesses change from retail to eating and drinking establishments supporting residents and employees.

Larger commercial development has included:

- **Hasbro** – An 88 year old local toy/gaming company, headquartered in Pawtucket Rhode Island, is expanding its offices to Downtown Providence. Starting in September 2011 with the relocation of approximately 150 employees from Massachusetts to Downtown, this relocation will continue over the coming years with staff growing to approximately 250 by September 2012 and with plans to continued growth over the coming years with new jobs for area residents.
- **38 Studios** – The Rhode Island Economic Development Corporation provided a \$75 million loan guarantee for the development of this innovative digital game business. The company, located on Empire Street, in the Downtown, is rapidly growing and preparing for the launch of its product lines in the near future.
- **Mercantile Block** – a \$16 million project that converted an aging, vacant downtown building into a thriving space for commercial activity and artists' live-work space opened this summer, with a lively new restaurant – Mexico – funded in part through the PEDP program.
- **UNFI** – the organic food company United Natural Foods Inc. moved its world headquarters in 2009 to a location adjacent to the Rhode Island Economic Development

Corporation, in the Valley section of the City. UNFI continues to grow and has added approximately 100 jobs over the past year.

- **Umicore**- a leading manufacturer of industrial films and touch screen components, negotiated an agreement with the City of Providence that enables the international company to remain in its existing facilities on the Promenade and expand significantly, hiring upwards of 100 new workers.
- **Dassault Systemes** – an international software company with USA operations based in Providence’s Olneyville section, is in the process of dramatic expansion with an estimated 100+ new jobs. PEDP and the State Economic Development Corporation jointly funded development of a critically needed parking facility.
- **Achetype FETE**- a \$3.5 million project where entrepreneurs Nick Bauta and Anna Shea fully redeveloped an abandoned manufacturing building on Providence’s West End, into a lively 3-unit, entertainment venue.
- **The Port of Providence** has continued its success as one of the region’s deepest ports (40-foot draft) and is in the process of securing funding for the acquisition of two new cranes, connection of the two Providence & Worcester rail lines, and construction of additional lay-down area to accommodating increasing import/export activity.

### **Institutional expansion**

The opening this year of the Brown University Warren Alpert Medical School on 222 Richmond Street has opened the door for additional institutional investment in the Knowledge District. Rhode Island Hospital continues to renovate the Coro Building as a major research facility as it relocates office facilities to the ManuCenter on Ernest Street.

### **Public Investment**

In addition to making major investments in the City street system, multiple offices have been consolidated into a Municipal Office Building to improve the delivery of City services that have a direct impact on development and quality of life. With the leasing of 444 Westminster Street, the departments of Planning and Development, Inspection and Standards, Law, Art Culture and Tourism, Workforce Development, IT and Economic Development have been co-located to better serve the public at no additional cost to taxpayers. Efforts are underway to integrate the Fire Marshal’s Office so that the City’s Plan Review Process can be better coordinated.

Major road projects to be started or completed include:

- **Downtown Providence Traffic Circulation Phase 2** - Project work completed included a portion of sidewalk and road improvements on Weybossett Street and portion of traffic signal improvements on Empire Street, Weybossett Street, Broad Street and Dorrance Street. Roughly \$700,000 in construction was completed during the fiscal year. Overall project budget: \$5,000,000.

- **Westminster Street Olneyville Square Streetscape Improvements** - Project work completed included installation of a portion of the underground conduit for proposed ornamental lighting and traffic signals on Westminster Street. Sidewalk repairs relating to the conduit installation were also performed. Roughly \$1,000,000 in construction was completed during the fiscal year. Overall project budget: \$3,000,000.
- **Broadway Road and Traffic Signal Improvements** – Project work completed included most of the sidewalk repairs and traffic signal improvements on Broadway. Roughly \$300,000 in construction was completed during the fiscal year.
- **Downtown Providence Traffic Circulation Phase 3** – Project is currently at 30% design stage with bid advertisement scheduled for the spring/summer of 2012.
- **Luongo Square** - Project is currently at 90% design stage with bid advertisement scheduled for the spring of 2012.
- **Elmwood Avenue (RIDOT managed project) - Phase 2** - Traffic signal improvements from Roger Williams Avenue to Elmwood Avenue. Most of the construction was completed within this period with a total project cost of \$2.2 million. *Phase 3* - Road Paving/sidewalk Improvements from Roger Williams Avenue to Elmwood Avenue and traffic signal improvements from Elmwood Avenue to the Service Road. This project is at 90% design stage with bid advertisement scheduled for the summer of 2012.
- **Dean Street/Cahir Street/Stewart Street Landscaping Improvements (RIDOT managed project)** - Street trees and other plantings on Dean Street from West Exchange Street to Point Street. This project is currently being bid/advertised and construction will begin in the spring of 2012.

### Debt Administration

Outstanding governmental and business-type activity bonds at June 30, 2011 totaled \$634,277,000. Note 7 of this report presents more detailed information about the City's debt position. The City has the following bond ratings:

Moody's Investor Services	A3
Standard and Poors	BBB+
Fitch	A

### Cash Management

Cash temporarily available during the year was invested for periods ranging from 30 to 181 days to maturity in accordance with Rhode Island General Laws, Chapter 35-10.1. Trust funds are also authorized to invest in corporate bonds, securities and other commercial paper. Three factors affecting investment income include: (1) interest rates, (2) available cash balances, and (3) cash flow management.

### Risk Management

hypertension, property and casualty, general liability, professional liability, and other exposures including theft, performance, and surety.

The activities of the risk management program are accounted for in an internal service fund. This fund operates on a full accrual basis with self-retention levels. Each year, total risk management costs are charged as an insurance premium to departments based on formulas applying elements of exposure and loss history.

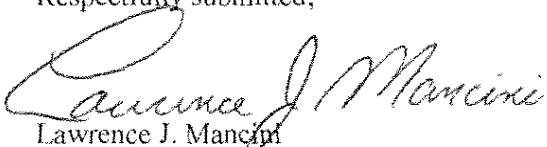

### **Long-Term Financial Planning**

As part of the annual budget process, the Finance and Planning Department present a five-year Capital Improvement Plan. This plan identifies costs and financing methods for those capital projects the City expects to fund over the next five years. The 2011 – 2015 fiscal year Capital Improvement Plan projects needs through fiscal 2015. The plan provides for the needs of the general government and addresses issues such as infrastructure, major equipment replacement, school facilities, public safety, recreation and public lands and parks. The estimated cost of the Capital Improvement Plan is \$180,000,000.

### **Acknowledgments**

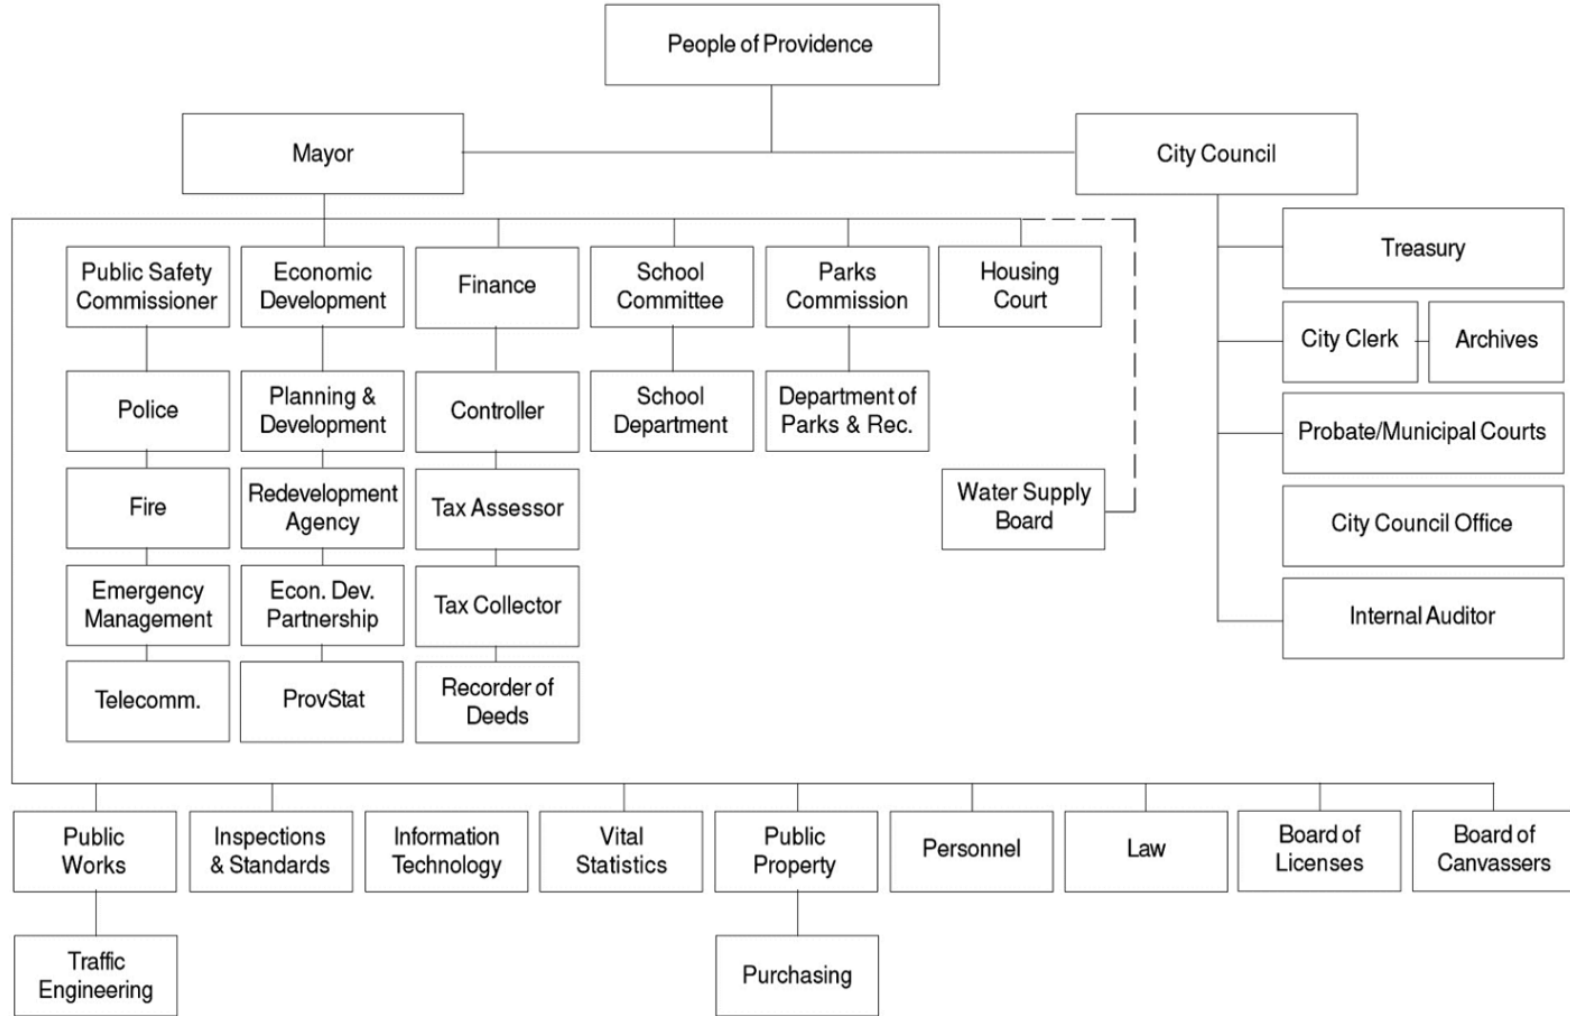

The preparation of this report could not have been accomplished without the dedication and hard work of the entire staff of the Finance, Planning & Development, Policy, and Communications professionals who work for the City of Providence. I would like to express my appreciation and gratitude to all of the staff members who assisted and contributed to its preparation. I also appreciate the assistance and dedication of the audit team of Braver, PC. Finally, I would like to thank Mayor Angel Taveras and the Providence City Council for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

  
Lawrence J. Mancini  
Acting Finance Director

## FINANCIAL SECTION

- REPORT OF INDEPENDENT AUDITORS
  - MANAGEMENT'S DISCUSSION AND ANALYSIS
  - BASIC FINANCIAL STATEMENTS
  - SUPPLEMENTARY INFORMATION
-

**REPORT OF INDEPENDENT AUDITORS**

To the Honorable Mayor and Members  
of the City Council  
Providence, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Providence, Rhode Island, as of and for the year ended June 30, 2011, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Providence, Rhode Island's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Providence, Rhode Island, as of June 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 29, 2011, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of funding progress on pages 3 through 11, and 57 through 64, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Needham

Concord  
Taunton

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Providence, Rhode Island's basic financial statements. The introductory section and the accompanying financial information listed as supplemental schedules in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole. The introductory section and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
JUNE 30, 2011

This Management's Discussion and Analysis of the City of Providence, Rhode Island's Basic Financial Statements provides a narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2011.

**Financial Highlights – Primary Government**

**Government – Wide Highlights**

*Net Assets* – The liabilities of the City's governmental activities exceeded its assets for the fiscal year ending June 30, 2011 by \$105.7 million (presented as "total net assets"). Of this amount, a negative of \$233 million was reported as "unrestricted." The net investment in capital assets was \$127.3 million. The assets of the City's business-type activities exceed its liabilities by \$231.8 million. Of this amount, \$201.3 million represents the City's net investment in capital assets.

*Change in Net Assets* – The City's total net assets decreased by \$57.2 million in fiscal year 2011. Net Assets of governmental activities decreased by \$74.6 million, while net assets of business-type activities increased by \$17.4 million.

**Fund Highlights**

*Governmental Funds – Fund Balances* – As of June 30, 2011, the City's governmental funds reported a combined ending fund balance of \$68.6 million, a \$.068 million decrease from the prior year. Of the total fund balance reported, \$3.7 million represents "undesignated fund balance," of which \$0 million pertains to Capital Project Funds, \$0 million is for non-major funds, \$3.7 million pertains to the general fund, and \$0 million pertains to school grant funds.

**Long-Term Obligations**

The City's total long-term obligations related to its government activities had a net increase of \$85.3 million during the current fiscal year.

The total long-term obligations of the City's proprietary activities decreased \$1.9 million during the current fiscal year.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City of Providence's basic financial statements. The City's basic financials statements include three components: 1) government – wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional supplementary information (budget schedules) and other supplementary information (combining financial statements). These components are described in this next section of this analysis.

**Basic Financial Statements**

The basic financial statements include two types of statements that present different views of the City's financial information. These statements are the **Government-Wide and the Fund Financial statements**. These financial statements are accompanied by **Notes to the financial Statements**, which provide detailed information about financial statement items.

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
JUNE 30, 2011

**Government-Wide Financial Statements**

The government-wide financial statements provide a broad view of the city's operations in a manner similar to a business operating in the private sector. The statements provide short-term and long-term information about the City's financial position, which assists in assessing the City's economic condition at the end of the fiscal year. These are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This basically means they follow methods that are similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. The government-wide financial statements include two statements:

- The *Statement of Net Assets* presents all of the government's assets and liabilities, with the difference between the two reported as "net assets." Overtime, increases or decreases in the City's net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.
- The *Statement of Activities* presents information showing how the government's net assets changed during the fiscal year. All changes in net assets are reported, as soon as, the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expense are reported in this statement for some items that will not result in cash flows until future fiscal periods (such as, uncollected taxes and earned, but unused vacation leave). This statement also presents a comparison between direct expenses and program revenues for each function of the City.

Both of the above financial statements have separate sections for two different types of the City's programs or activities. These activities are defined below:

- *Governmental Activities* – The activities in this section are supported mostly by tax revenues and intergovernmental revenues (federal and state grants). Most services normally associated with City government fall into this category, including the executive, legislative and judicial, financial administration, human resources, public safety, building inspections, public works, recreation, parks, schools, public property, planning, other general government, judgment and claims, retirement costs, debt service, and other employee benefits.
- *Business-Type Activities* – These functions normally are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The City's business-type activities include the operations of the Water Supply Board and The Providence Public Building Authority. The City does not have any discretely presented component units.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other local Governments, the City uses fund accounting to ensure and demonstrate compliance with finance-regulated legal requirements.

The fund financial statements focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide statements. All of the funds of the City can be divided into three categories. It is important to note that these fund categories use different accounting approaches and should be interpreted differently. The three categories of funds are described below:

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
JUNE 30, 2011

1. *Governmental Fund Financial Statements* – Most of the basic services provided by the City are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting. These statements provide a detailed, short-term view of the City's finances that assists in determining whether there will be adequate financial resources available to meet the current needs of the City.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The City has four governmental funds considered to be major funds for financial statement presentation. That is, each major fund is presented in a separate column in the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances. The City's four major governmental funds are comprised of the following: (1) the General Fund, (2) the School Fund, (3) the School Grant Fund, and (4) the Capital Projects Fund. All nonmajor governmental funds are presented in single column. The basic governmental fund financial statements can be found immediately following the government-wide statements.

2. *Proprietary Fund Financial Statements* – These funds are used to show activities that operate more like those of commercial enterprises. Because these funds charge fees for services provided to outside customer, including local governments, which are known as enterprise funds. Proprietary funds provide that same type of information as the government-wide financial statement, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. There is no reconciliation needed between the government-wide financial statements for business-type activities and proprietary fund financial statements. The City has two major enterprise funds: The Water Supply Board and the Providence Public Buildings Authority. Financial statements for the Providence Public Buildings Authority may be obtained from the City of Providence Finance Department.

The Internal Service Fund is maintained to account for the self-insured health claims and potential legal claims of the City.

The basic proprietary fund financial statements can be found immediately following the governmental fund financial statements.

3. *Fiduciary Fund Financial Statements* – These funds are used to account for resources held for the benefit of parties outside the City government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the City's own programs. The accounting used for fiduciary funds is similar to that used for proprietary funds. They use the accrual basis of accounting.

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**JUNE 30, 2011**

The City's fiduciary funds are the Employee Retirement Fund, various Private-Purpose Trust Funds, and Agency Funds.

The fiduciary financial statements can be found immediately following the proprietary fund financial statements.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund basis financial statements. The notes to the financial statements can be found immediately following the fiduciary fund financial statements.

**Required Supplementary Information**

The basic financial statements are followed by a section of required supplementary information. This section includes budgetary comparison schedules for the general and school funds – the only governmental funds for which legal budgets are adopted annually. In fiscal year 2011, there were no significant modifications to the budgets originally adopted for each fund.

**Other Supplementary Information**

**Combining Financial Statements and Schedules**

Combining financial statements are presented for nonmajor governmental funds and combining schedules are presented by individual grant within the school department. These are presented following the required supplementary information. The total columns of these combining financial statements and schedules are presented in the applicable fund financial statement.

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**JUNE 30, 2011**

**Government-Wide Financial Analysis**

**Net Assets**

As earlier noted, net assets may serve as a useful indicator of the government's financial position over time. The City's combined net assets (government and business-type activities) totaled \$126 million at the end of 2011, compared to \$193.3 million at the end last year.

The largest portion of the City's net assets, \$328.6 million, reflect its investment in capital assets, like land, buildings, equipment, and infrastructure (roads, bridges, and other immovable assets) less any outstanding related debt used to acquire that asset. The City uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the City's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets can not be used to liquidate these liabilities.

Restricted net assets of \$18.8 million primarily represent water restricted funds that are subject to external restrictions on how they may be used. Internally imposed designations of resources are not presented as restricted net assets.

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**JUNE 30, 2011**

**Changes in Net Assets**

The City's net assets decreased by \$74.7 million and increased by \$17.4 million for governmental activities and business-type activities, respectively. The reason for this decrease is due primarily to a cut in state funding and increase in employee benefits and related costs and a change in assumption for the OPEB. Business-type activities increased due to large commitment to the replacement of infrastructure included in water rates in FY2011. Approximately 42% of the City's total governmental revenues were generated from taxes and payments in lieu of taxes. 44% resulted from grants and contributions, including Federal Aid. Charges for various goods and services provided 10.0% of total revenues, while other revenues and investment and rental income accounted for 4% of total revenues, respectively. The City's expenses cover a range of services. The largest expenses were for school, public safety, retirement costs, and employee benefits. Revenues from business-type activities in 2011 exceeded expense by \$17.4 million. The increase in revenue was attributable to an across the board increase in rates that was in place for all of 2011 for the Water Supply Board, which reported an increase in revenue of 11.1%, while expense decreased 3.1% over the prior year, as a result of negotiated adjustments to salaries, the reductions of some benefits, a reduction in property taxes and bad debts.

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
JUNE 30, 2011

**Business-Type Activities**

The business-type activities increased the City's net assets by \$17.4 million. This resulted primarily from a \$17.1 million increase in net assets of the Water Supply Board, an increase of net assets of \$183 thousand by the Providence Public Building Authority, and \$150 thousand by the school lunch program .

**Financial Analysis of the City's Individual Funds**

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$3.725 million. As a measure of the general funds' liquidity, it may be useful to compare both unassigned fund balance and total fund balance. Unassigned general fund balance represents 1.13% of total general fund expenditures.

*School Grants-Fund Balance* – The school grant funds account for federal and state grants received and expended by the school system. The fiscal year 2011 school grants fund balance is reported at \$2.21 million, a \$2.3 million increase from fiscal year 2011. The inclusion of all state aid in fiscal 2011 was included in the School's general fund and excluded from the school grants fund.

*School Fund* – The school fund ended the year with a \$0 fund balance in accordance with City charter regulations. The expenditures were \$316.8 million as compared to \$260 million in the prior year. The inclusion of all state aid in fiscal 2011 was included in the School's general fund and excluded in the school grants fund.

*Capital Projects Fund-Fund Balance* – The capital projects fund accounts for resources to be used for the acquisition or construction of capital assets for housing and community improvement activities in the City, other than those financed by proprietary funds. The fiscal year 2011 capital projects fund balance is \$3.65 million. The \$3.43 million decrease from fiscal year 2010 is attributable to the expenditure and completion of several capital projects during the year.

**Proprietary Funds**

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. As discussed in the business-type activities above, the City's proprietary net assets increased by \$17.4 million as a result of operations in the individual enterprise funds. This resulted primarily from a \$17.1 million increase in net assets of the Water Supply Board, an increase of net assets of \$183 thousand by the Providence Public Building Authority, and \$150 thousand by the school lunch program.

**CITY OF PROVIDENCE, RHODE ISLAND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**JUNE 30, 2011**

**General Fund Budgetary Highlights**

The general fund incurred an uncombined deficit in FY 2011 of \$8.15 million, of which \$1.378 million was reserved for future expenditures in FY 2010. In FY 2011 the \$1.378 million was appropriated for deficit reduction during the FY 2011 budgetary process. This will decrease the cumulative uncombined general fund balance to a negative \$4.692 million. The new GASB 54 requirement for combining funds shows a cumulative general fund surplus of \$3.725 million. Total general fund revenues and transfers for the fiscal year were \$481.3 million and total general fund expenditures and transfers for the fiscal year were \$491.9 million.

Further details of favorable and unfavorable variances of revenue and expense items can be found in the Required Supplementary Information on pages 57 to 61 of the Comprehensive Annual Financial Report.

**Capital Asset and Debt Administration**

The City's investment in capital assets for its governmental activities as of June 30, 2011 amounts to \$1,033.4 million, net of accumulated depreciation of \$366.8 million, leaving a net book value of \$666.6 million. This investment in capital assets included land, buildings, improvements, equipment, infrastructure and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the City, such as roads, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items.

The authority of the City to incur debt is governed by federal and state laws, which restrict the amounts and purposes for which a municipality can incur debt.

General obligation bonds are backed by the full faith and credit of the City, including the City's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the City Council.

The City's total outstanding notes and bonds increased by \$47.4 million during the current fiscal year.

The 2004 State legislative session authorized the City to issue variable rate debt and to participate in interest rate swaps. The City is developing policies that will set guidelines and procedures and define permitted instruments. It will set participant requirements and limitations on exposure, as well as ongoing management and reporting requirements.

The City of Providence maintains the following ratings from Wall Street's credit agencies for general obligation debt: an A3 rating from Moody's Investors Service, and a BBB+ rating from Standard and Poor and an A rating from Fitch. The City of Providence continues to perform long-term strategic planning in a proactive attempt to control costs: examples of these costs are health insurance, pension costs, education, salaries and benefits and debt service. The City has negotiated with all of its unions to increase employee contributions for health insurance.

Additional information on the City's long-term debt obligations can be found in Notes 7 and 8 to the Financial Statements.

**Requests for Information**

This financial report is designed to provide a general overview of the City of Providence's finances for all of the City of Providence's citizens, taxpayers, customers, and investors and creditors. This financial report seeks to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: City of Providence, Finance Department, Providence City Hall, Room 304, Providence, RI 02903.

*Reconciliation of the Statement of Revenues, Expenditures  
and Changes in Fund Balances of Governmental Funds  
For the Year Ended June 30, 2011 (in thousands)*

---

<b>Net Change in Fund Balances - Total Governmental Fund (B-2)</b>	<b>\$ (6)</b>
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	(6,735)
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned.	(871)
Internal service funds are used by management to charge the costs of certain activities, such as fleet maintenance and information technology, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.	(2,549)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(12,968)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	<u>(51,550)</u>
<b>Change in Net Assets of Governmental Activities in the Statement of Activities (A-2)</b>	<b><u>\$ (74,679)</u></b>

Notes to Financial Statements

June 30, 2011 (in thousands)

## I. SIGNIFICANT ACCOUNTING POLICIES

### *Reporting Entity*

The City of Providence, Rhode Island (the "City") was incorporated in 1832. The City covers 18.5 square miles located in southeastern New England, at the head of the Narragansett Bay on the Atlantic sea coast. The City is approximately 45 miles from Boston and approximately 3 1/2 hours from New York by automobile or rail.

The City operates under a Mayor-Council form of government. A Home Rule Charter was adopted in November 1980 and became fully effective on January 3, 1983. The Mayor is elected by the voters of the City to a four-year term. City Council members are also elected to four-year terms, which coincide with the term of the Mayor. Most department heads and other City officials are appointed by the Mayor.

The City complies with generally accepted accounting principles (GAAP), including all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide Statement of Net Assets and Statement of Activities, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds subject to this same limitation. The City has elected not to follow subsequent private-sector guidance. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 39. Under GASB Statement No. 39, the financial reporting entity includes both the primary government and all of its component units. Component units are legally separate entities that meet any one of the following three tests:

Test 1 - The primary government appoints the voting majority of the board of the potential component unit and

- \* is able to impose its will on the potential component unit and/or
- \* is in a relationship of financial benefit or burden with the potential component unit;

Test 2 - The potential component unit is fiscally dependent upon the primary government; or

Test 3 - The financial statements would be misleading if data from the potential component unit were not included.

The criteria has been considered and the blended component units discussed below are included in the City's reporting entity because of the significance of its operational or financial relationships with the City.

### *Individual Component Unit Disclosure*

The component unit provides services entirely or almost entirely to the City or otherwise exclusively or almost exclusively benefits the City, even though they do not provide services directly to it. The component unit has been reported as if it was part of the primary government through a method of inclusion known as blending. A description of the component unit, criteria for inclusion and its relationship with the City is as follows:

#### Providence Public Buildings Authority

The Providence Public Buildings Authority ("PPBA") was created by an act of the Rhode Island General Assembly and was empowered by resolution of the Providence City Council on August 13, 1987, and by resolution of the Public Finance Board, created under Section 42-10.11 of the General Laws of Rhode Island, on February 12, 1988. Membership is comprised of 5 members appointed by the Mayor and approved by the City Council. The PPBA is presented as a blended enterprise fund.

## CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements  
June 30, 2011 (in thousands)

---

### 1. *SIGNIFICANT ACCOUNTING POLICIES (Continued)*

#### *Individual Component Unit Disclosure (Continued)*

##### Providence Public Buildings Authority (Continued)

The purpose of the PPBA is to acquire, construct, maintain, renovate, repair and operate public facilities and public equipment through the use of public financing for lease to the City. These activities allow the PPBA to provide for the conduct of the executive, legislative and judicial functions of the government. The PPBA is obligated to pay the principal and interest on any financing solely from the rents, revenues and receipts derived under the lease agreements with the City or from receipts on the disposition of the assets being financed. The PPBA's administrative expenses are paid on an annual basis by the lessee in the form of additional rent.

Complete financial statements of the PPBA can be obtained through the City of Providence Finance Department, City Hall, Providence, Rhode Island 02903.

##### The Providence Redevelopment Agency

The Providence Redevelopment Agency ("PRA") was formed on December 20, 1946 pursuant to R.I.G.L. 45-31 (the Act) by a duly enacted resolution of the City Council of the City. Under the Act, the PRA constitutes a body corporate and politic, exercising public and essential government functions, and having a distinct legal existence from the City. As such, the PRA has the authority to acquire, develop as a building site, administer, sell and lease property, has the power of eminent domain, and the power to issue bonds, notes and other evidence of indebtedness. The PRA does not have the power to levy taxes.

The PRA was created to eliminate and prevent blighted and substandard areas and replace such areas through redevelopment of well-planned, integrated stable, safe and healthful neighborhoods.

The Powers of the PRA are vested in eight members, including the Mayor of the City ex officio, five members appointed by the Mayor of the City and two members who are also members of the City Council, appointed by the City Council. All appointed members of the PRA must be resident electors of the City. The PRA is presented as a blended special revenue fund.

#### *Recently Issued Accounting Standards*

The City has implemented GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions. Implementation of this Statement required a restatement of fund balance at the beginning of the year due to consolidation of the General Fund and several funds which were previously reported as non-major governmental funds.

The City has also implemented GASB Statement No. 59 – Financial Instruments Omnibus. Adoption of this Statement did not have a significant impact on the City's fiscal 2011 financial statements.

The City has implemented GASB Statement No. 57 – OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. Adoption of this Statement did not have a significant impact on the City's fiscal 2011 financial statements.

The City will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 60 – Accounting and Financial Reporting for Service Concession Arrangements, effective for the fiscal year ending June 30, 2013.
- GASB Statement No. 61 – The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34, effective for the fiscal year ending June 30, 2013.

## CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements  
June 30, 2011 (in thousands)

---

### 1. *SIGNIFICANT ACCOUNTING POLICIES (Continued)*

#### *Recently Issued Accounting Standards (Continued)*

- GASB Statement No. 62 – Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, effective for the fiscal year ending June 30, 2013.
- GASB Statement No. 63 – Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, effective for the fiscal year ending June 30, 2013.
- GASB Statement No. 64 – Derivative Instruments: Application of Hedge Accounting Termination Provisions – An Amendment of GASB Statement No. 53, effective for the fiscal year ending June 30, 2012.

The impact of these pronouncements on the City's financial statements has not been determined.

#### *Government-Wide Fund Financial Statements*

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. For the most part, the effect of interfund activity has been removed from these statements. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and proprietary funds are reported as separate columns in the fund financial statements.

#### *Measurement Focus, Basis of Accounting, and Financial Statement Presentation*

The government-wide financial statements, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year when levied for. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the "current financial resources" measurement focus and the modified accrual basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred as under accrual accounting, however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due (matured).

## CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements

June 30, 2011 (in thousands)

### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)*

Property taxes when levied for, intergovernmental revenue when eligibility requirements are met, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual (measurable) and so have been recognized as revenues of the current fiscal period, if available. All other revenue items, primarily permits and fees, are considered to be measurable only when cash is received by the City.

All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets. Proprietary funds distinguish operating revenues and expenses from non-operating items.

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and the government's internal service funds are charges to customers for sales and services. Operating expenses for proprietary funds, including both enterprise funds and internal service funds, include the cost of operations, maintenance, sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Revenues from charges for services of the Providence Water Supply Board are recognized on the accrual basis, net of estimated uncollectibles. Depending upon consumption, metered water sale customers are billed monthly, quarterly or annually for water usage. Large commercial customers and other local water suppliers are billed more frequently.

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a) Total assets, liabilities, revenues, or expenditures/expenses of that individual, governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b) Total assets, liabilities, revenues, or expenditures/expenses of the individual, governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The City reports the following major governmental funds:

- The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The *School Fund* accounts for operations of the Providence school system.
- The *School Grants Fund* accounts for federal, state, and private grants received and expended by the school system.
- The *Capital Projects Fund* accounts for resources to be used for the acquisition or construction of capital assets for the housing and community improvement activities in the City.

The City reports the following major proprietary funds:

- The *Water Supply Board* accounts for the activities of the Providence Water Supply Board.
- The *Providence Public Buildings Authority* accounts for the activities related to acquisition, construction and leasing of capital assets to the City.

## CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements

June 30, 2011 (in thousands)

---

### I. *SIGNIFICANT ACCOUNTING POLICIES (Continued)*

#### *Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)*

Additionally, the City reports the following fund types:

- The *Pension Trust Fund* accounts for the activities of the City of Providence Employees Retirement System, which accumulates resources for pension benefit payments to qualified employees.
- The *OPEB Trust Fund* is used to account for the activities of the City of Providence Other Post Employment Benefits.
- The *Private-Purpose Trust Fund* is used to account for resources legally held in trust for the benefit of individuals, organizations or other governments.
- The *Agency Fund* accounts for assets held by the City in a purely custodial capacity. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations.
- The *Internal Service Fund* is used by management to charge the costs of self-insurance and legal claims to individual funds.

#### *Interfund Receivables and Payables*

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### *Pension Plan Accounting*

##### Employee Retirement Plan

The Employee Retirement Plan (Pension Trust Fund) is reported on the accrual basis of accounting. Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Administrative costs are financed through investment earnings.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value, based on value of underlying assets.

The net pension obligation, the cumulative difference between annual pension cost and the City's contributions to the plan since 1986, is calculated on an actuarial basis consistent with the requirements of Government Accounting Standards Board Statement No. 27. Expenditures are recognized when they are paid or are expected to be paid with current available resources. The net pension obligation is recorded as a non-current liability in the government-wide financial statements.

##### Funding Policy

The City makes contributions at the discretion of management.

#### *Accounting Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements  
June 30, 2011 (in thousands)

**I. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Property taxes***

The City's property tax is levied each year on July 1 based on the assessed property value, as of the prior December 31, for all real property, tangible property, equipment and motor vehicles located in the City. Assessed values of real property were established by the City Assessor's office at 100% of appraised market value based on 2003 State mandated statistical updated valuations less Homestead exemptions for up to five residential units. Assessed values of tangible property and equipment and motor vehicles are determined annually at 100% of market value, with a State mandated, 10-year phase-out on tangible inventory property and a \$6,000 exemption on motor vehicle assessments. Payments on the gross levy are due in equal quarterly installments in July, October, January, and April. Property taxes attach as an enforceable lien on property when levied.

***Cash equivalents***

For purposes of the cash flow statement, the City considers certificates of deposits and highly liquid short-term investment funds with original maturities of three months or less, when purchased, to be cash equivalents, including amounts reported as restricted.

***Investments***

Investments and pooled fixed income investments are stated at fair value, based on quoted market prices.

***Inventories and prepaid assets***

Proprietary fund inventory is stated at the lower of weighted average cost or market using the first-in, first-out method. Inventory consists primarily of materials and supplies. Inventory is not maintained in governmental funds, but is recorded as an expenditure at the time of purchase. Inventory on hand at year-end is not material.

Any material payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

***Capital Assets***

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Capital assets are defined by the government as all computer equipment and assets with an initial, individual cost of more than a range of \$5,000 to \$100,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital asset, as applicable.

Capital assets of the governmental activities are depreciated using the straight-line method over the following estimated useful lives:

Assets	Year
Buildings.....	45
Building improvements.....	20
Public domain infrastructure.....	45
System infrastructure.....	30
Vehicles.....	6
Office equipment.....	7
Computer equipment.....	5
Machinery and equipment.....	15

CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements

June 30, 2011 (in thousands)

I. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

Capital assets are reported as expenditures and no depreciation expense is reported in the governmental fund financial statements.

Property, plant and equipment of the business-type activities and proprietary funds are depreciated using the straight-line method over the following estimated useful lives:

	<u>Water Supply Board</u>
Buildings, source of supply, structures, and improvements.....	5 – 75 years
Improvements other than buildings.....	3 – 75 years
Machinery and equipment.....	3 – 50 years

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds from project specific debt issued over the same period.

Self-Insurance

The City is self-insured in most areas of risk, subject to certain third-party “stop loss” coinsurance. Self-insured risks include general liability, property and casualty, workers’ compensation, unemployment and employee health and life insurance claims. Claims incurred but not paid, including those which have not been reported, are accrued as long-term obligations in the government-wide and internal service fund financial statements. Obligations are paid out of the General Fund and the Internal Service Funds.

Allowance for Collection Losses

The allowance for possible loan losses is maintained at a level believed adequate by management to absorb potential losses for outstanding loans. Management’s determination of the adequacy of the allowance is based on an evaluation of the portfolio, past loan loss experience and current economic conditions.

All trade and property tax receivables for governmental and proprietary funds are reported net of an allowance for uncollectibles, totaling \$44,225 and \$2,378 respectively. The majority of amounts relates to property taxes and water usage. Amounts determined to be uncollectible are based on the type and age of the related receivable and the ability of the debtor to pay.

Compensated Absences

Under the terms of various contracts and policies, employees are granted vacation and sick leave based on length of service. The City’s policy is to recognize the cost of vacation and sick leave in governmental funds when paid (matured). The liability for vacation and sick leave is recognized when earned in the government-wide and proprietary fund financial statements. For governmental activities the general fund is used to satisfy this liability as it becomes due, while each enterprise fund accounts for all its settlement of business-type liabilities for compensated absences.

Long-term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

## CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements

June 30, 2011 (in thousands)

---

### 1. *SIGNIFICANT ACCOUNTING POLICIES (Continued)*

In the fund financial statements, governmental fund types recognize bond proceeds, premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Payments of bond principal are recognized as expenditures as it comes due.

#### *Fund Equity and Net Assets*

In the government-wide and proprietary fund financial statements, net assets are classified in the following categories:

***Invested in Capital Assets, Net of Related Debt*** - This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce this category.

***Restricted Net Assets*** - This category represents the net assets of the City, which are restricted by outside parties or enabling legislation.

***Unrestricted Net Assets or Deficits*** - This category represents the net assets of the City, which do not meet the definition of "restricted" or "invested in capital assets, net of related debt". Deficits require future funding.

Governmental fund equity is classified as fund balance. With the implementation of GASB Statement #54 (effective fiscal 2011), fund balance is classified into one of the following five categories: nonspendable, restricted, committed, assigned, or unassigned. These categories are defined below.

- (a) Nonspendable Fund Balance - includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. "Not in spendable form" includes items that are not expected to be converted to cash.
- (b) Restricted Fund Balance - includes amounts that are restricted to specific purposes. Fund balance is reported as restricted when constraints placed in the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- (c) Committed Fund Balance - includes amounts that can be used only for the specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The City Council is the highest level of decision-making authority for the City of Providence and utilizes City Ordinances to vote on the City's budget and resolutions proposed by the various committees.
- (d) Assigned Fund Balance - includes amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- (e) Unassigned Fund Balance - is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

**2. RECONCILIATION OF GOVERNMENTAL ACTIVITIES AND GOVERNMENTAL FUND FINANCIAL STATEMENTS**

The governmental fund balance sheet includes a reconciliation between fund balances — total governmental funds and net assets — governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$638,300 difference are as follows:

Bonds and notes payable	\$ (581,852)
Add: premiums and discounts	3,792
Leases payable	(21,330)
Capital notes payable	(24,103)
Accrued interest payable	(5,312)
Compensated absences	(32,358)
Workers' compensation	(3,520)
Unspent PPBA bond proceeds	49,443
Claims and judgments	<u>(23,060)</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities	<u>\$ (638,300)</u>

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances — total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$6,735 difference is as follows:

Capital outlay - governmental funds	\$ 11,307
Depreciation expense	<u>(18,042)</u>
Net adjustment to decrease net changes in fund balance - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ (6,735)</u>

Another element of that reconciliation states that “the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$12,968 difference are as follows:

<b>Long-Term Liabilities issued or incurred:</b>	
Bond proceeds	\$ (47,895)
Bond proceeds- from PPBA	(39,689)
<b>Principal repayments:</b>	
General obligation bonds	68,511
Capital leases	2,926
Capital notes	2,966
Notes payable	<u>213</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ (12,968)</u>

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

**2. RECONCILIATION OF GOVERNMENTAL ACTIVITIES AND GOVERNMENTAL FUND FINANCIAL STATEMENTS (Continued)**

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$51,550 difference are as follows:

Compensated absences	\$	281
Accrued interest		(680)
Deferred charges		(954)
Amortization of bond premium		(392)
Claims and judgments		(13,086)
Net pension obligation		(3,348)
Other post employment benefits		<u>(33,371)</u>
Net adjustment to decrease net changes in fund balance - total governmental funds to arrive at changes in net assets of governmental activities	\$	<u>(51,550)</u>

**3. CASH, CASH EQUIVALENTS AND INVESTMENTS**

***Deposits***

The City’s custodial credit risk policy is in accordance with RI General Laws, Chapter 35-10.1, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State, shall at a minimum, insure or pledge eligible collateral equal to 100% of time deposits with maturities greater than sixty days. Any of these institutions which do not meet minimum capital standards prescribed by federal regulators will insure or pledge eligible collateral equal to 100% of deposits, regardless of maturities.

***Investments***

The City policy for pension investments is under the oversight of the Board of Investment Commissioners. The Board contracts with an investment advisory firm and approves any new investment vehicles presented by the consultant. The Board follows all applicable state statutes and Section 17-189 of the City Ordinance, which states, “The Board of Investment Commissioners is authorized and empowered to execute the disposition and investment of the funds which are within its control in any securities and investments as would be acquired by prudent persons of discretion and intelligence in these matters, who are seeking a reasonable income and the preservation of their capital.”

Interest Rate Risk

The City does not have a formal investment policy for its pension funds that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The City’s policy is to limit its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools.

Concentrations

The City’s policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific issuer.

3. **CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)**

**Custodial Credit Risk**

Deposits

This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2011 \$47,371 of the city's bank balance of \$155,530 was uninsured and uncollateralized. (Amounts do not include PPBA, as such amounts cannot be separated.)

Investments

This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The City does not have a custodial credit risk policy.

**Cash and Cash Equivalents**

Deposits with financial institutions	\$ 85,309
PPBA deposits with financial institutions	52,013

<b>Total investments</b>	<b>\$</b>	<b><u><u>325,550</u></u></b>

**Interest Rate Risk**

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the entity's debt type investments to this risk using the segmented time distribution model is as follows:

Type of Investment	Fair Value	Investment Maturities (in Years)			
		Less Than 1 Year	1-5 Years	6-10 Years	Over 10 Years
U.S. Government Securities	\$ 1,710	\$	\$ 1,192	\$ 443	\$ 75
Corporate and Foreign Bonds	3,546	26	1,115	1,416	989

3. **CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)**

*Credit Risk*

Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. Presented below is the minimum rating as required for each debt type investment:

Average Rating	Corporate and Foreign Bonds	Municipal Bonds	PPBA-Guaranteed Investment Contracts
AAA	\$ 187	\$ 7,441	
AA+	96		
AA			3,258
AA-	106		
A+	238		
A	423

**4. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS**

As of June 30, 2011, inter-fund receivables and payables that resulted from various inter-fund transactions were as follows (in thousands):

	Due from Other Funds	Due to Other Funds
General Fund	\$ 70,087	\$ 59,964
School Fund	11,895	5,276
School Grants	1,840	13,019
Capital Projects	200	1,053
Non-Major Governmental Funds	10,431	15,314
Water Supply Board		544
School Lunch Program	179	128
Internal Service Fund	21,488	20,822
Total	<u>\$ 116,120</u>	<u>\$ 116,120</u>

Amounts owed among funds result principally from timing of payments to the City's general fund of \$70 million, payments to the City's health insurance and legal claims fund of \$21.1 million, and amounts owed to the school fund for current year expenditures of \$11.8 million. All of these amounts were paid subsequent to year-end. All other amounts owed are expected to be paid within one year.

Interfund transfers during the year ended June 30, 2011 were as follows (in thousands):

	Transfers from Other Funds	Transfers to Other Funds
General Fund	\$ 11,522	\$ 132,429
School Fund	126,147	1,051
School Grants	1,425	2,559
Non-Major Governmental Funds	367	3,422
Total	<u>\$ 139,461</u>	<u>\$ 139,461</u>

The most significant transfer in fiscal year 2011 was the appropriated operating subsidy from the City's general fund to the school fund.

6. **DEFERRED REVENUE/UNEARNED REVENUE**

Governmental funds report deferred revenue in connection with receivables for revenues that are not available to liquidate liabilities of the current period. Governmental funds and governmental activities report unearned revenue in connection with resources that have been received, but not yet earned. At year-end, the various components of unearned revenue and deferred revenue reported in governmental funds and governmental activities were as follows:

	Unearned Revenue	Deferred Revenue
<b>General Fund:</b>		
Taxes and accrued interest on delinquent property taxes	\$ -	\$ 12,355
Charges for services	-	14,133
<b>School Fund:</b>		
<b>School Grants:</b>		
Grant drawdowns prior to meeting all eligibility requirements	36 2,532	-
<b>Nonmajor Funds</b>		
Deferred revenue	7,298	
	<u>\$ 9,866</u>	<u>\$ 26,488</u>

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

**7. LONG-TERM OBLIGATIONS**

Long-term liability activity for the year ended June 30, 2011 was as follows:

	<b>Beginning Balance, as restated</b>	<b>Increases</b>	<b>Decreases</b>	<b>Ending Balance</b>	<b>Due Within One Year</b>
<b>Governmental activities</b>					
Bonds payable:					
General obligation bonds	\$ 88,260	\$ 30,545	\$ 37,870	\$ 80,935	\$ 9,035
Revenue bonds	58,080	17,350	2,290	73,140	2,365
Special obligation tax increment	18,435		2,860	15,575	2,990
<b>Total bonds payable</b>	<u>164,775</u>	<u>47,895</u>	<u>43,020</u>	<u>169,650</u>	<u>14,390</u>
Notes payable	798		213	585	175
Capital leases	24,256		2,926	21,330	3,039
Capital notes	27,069		2,966	24,103	1,045
<b>Total bonds and notes payable</b>	<u>216,898</u>	<u>47,895</u>	<u>49,125</u>	<u>215,668</u>	<u>18,649</u>
Deferred items from refunding	(4,184)	392		(3,792)	-
<b>Other Long-Term Liabilities:</b>					
Claims and judgments	25,408	12,626		38,034	38,034
Compensated absences	32,639	23,637	23,918	32,358	3,236
Net pension obligation	132,767	3,348		136,115	-
Other post employment liability	62,630	33,371		96,001	-
<b>Total other long-term liabilities</b>	<u>253,444</u>	<u>72,982</u>	<u>23,918</u>	<u>302,508</u>	<u>41,270</u>
<b>Governmental activity long-term liabilities before PPBA reclassification</b>	<u>466,158</u>	<u>121,269</u>	<u>73,043</u>	<u>514,384</u>	<u>59,919</u>
<b>PPBA Debt</b>	<u>360,663</u>	<u>76,445</u>	<u>25,491</u>	<u>411,617</u>	<u>24,601</u>
<b>Government activity long-term liabilities</b>	<u>\$ 826,821</u>	<u>\$ 197,714</u>	<u>\$ 98,534</u>	<u>\$ 926,001</u>	<u>\$ 84,520</u>

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

7. **LONG-TERM OBLIGATIONS (Continued)**

	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
<b>Business-type activities:</b>					
Bonds payable:					
Revenue bonds - water	\$ 55,299	\$ 1,056	\$ 3,345	\$ 53,010	\$ 3,521
PPBA - CITY	360,663	76,445	25,491	411,617	24,601
<b>Total bonds</b>	<u>415,962</u>	<u>77,501</u>	<u>28,836</u>	<u>464,627</u>	<u>28,122</u>
PPBA - PAP Loans	142,865	15,906	21,856	136,915	-
PPBA - Water	1,057		1,057		
Other post employment liability	1,350	1,057		2,407	-
<b>Business-type activity long-term liabilities</b>	<u>\$ 561,234</u>	<u>\$ 94,464</u>	<u>\$ 51,749</u>	<u>603,949</u>	<u>28,122</u>
Less PPBA Eliminations				<u>(548,532)</u>	<u>(24,601)</u>
<b>Business-type activity long-term liabilities</b>				<u>\$ 55,417</u>	<u>\$ 3,521</u>

\* - Amount represents internal loans between the City and the PPBA and is therefore eliminated on the entity-wide statements.

The Water Supply Board long-term debt is general obligation debt of the City. However, because it is the intent of the City to have the Board meet the debt service requirements of this debt, such amounts are recorded in the enterprise funds of the City. Similarly, debt of the PPBA that will be met by the Water Supply Board has been recorded as the Water Supply Board's debt.

**7. LONG-TERM OBLIGATIONS (Continued)**

**Notes Payable**

At June 30, 2011, the City had notes outstanding relating to planning and development activities. These notes included \$585 of Section 108 loans payable through 2013 with interest rates ranging from 3.82% to 7.18%; \$160 was paid in 2011.

**PPBA Eliminations**

The Providence Public Building Authority (PPBA) issues long-term bonds for the acquisition and construction of capital assets. Upon acquisition or completion, these capital assets are leased to the City. Because the PPBA is included as a blended component unit in the accompanying statements, the capital assets and related debt are reported as part of the governmental activities and business-type activities columns in the government-wide statements as presented below. The respective amounts in the PPBA statements have been eliminated in the business-type activities column in order to properly reflect the debt and assets. The annual requirements to amortize the debt payable at June 30, 2011 are as follows:

	City		Water Supply Board		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2012	\$ 24,486	\$ 19,783	\$ 115	\$ 41	\$ 24,601	\$ 19,824
2013	25,682	18,505	120	36	25,802	18,541
2014	26,718	17,439	125	30	26,843	17,469
2015	27,595	16,297	131	25	27,726	16,322
2016	28,115	15,108	137	19	28,252	15,127
2017-2021	138,367	56,420	123	21	138,490	56,441
2022-2026	108,931	29,011	-	-	108,931	29,011
2027-2031	30,972	7,042	-	-	30,972	7,042
	<u>\$ 410,866</u>	<u>\$ 179,605</u>	<u>\$ 751</u>	<u>\$ 172</u>	<u>\$ 411,617</u>	<u>\$ 179,777</u>

The City and the Water Supply Board entered into lease agreements with the PPBA relating to various capital projects. In connection with these lease agreements, the PPBA issued revenue bonds that will be repaid by the Water Board with the \$0.01 per hundred gallons Water Quality Protection Charge. The City repays the PPBA as lease payments from general revenues. The PPBA debt to be repaid by the proprietary funds has been shown as debt in those funds' financial statements. PPBA debt to be repaid by the City is presented as debt of the governmental activities in the government-wide statement of net assets.

**Debt limit**

Except as explained below, under Rhode Island law, the City may not, without special statutory authorization, incur any debt which would increase its aggregate indebtedness not otherwise excepted by law to an amount greater than 3% of the taxable property of the City. Deducted from the computation of aggregate indebtedness is the amount of any borrowing in anticipation of taxes authorized by law and the amount of any borrowing in anticipation of taxes authorized by law and the amount of any sinking funds maintained by the City. The current outstanding debt of the City subject to the 3% debt limit is \$6.8 million and the current 3% debt limit of the City is \$266.4 million based on taxable property as of December 31, 2010, of approximately \$11.9 billion, leaving a remaining borrowing capacity of approximately \$259.6 million.

The State of Rhode Island General Assembly (General Assembly) may, by special act permit the City to incur indebtedness outside the 3% debt limit. Bonds issued either within the 3% debt limit or by special legislation adopted by the General Assembly authorizing the City to incur debt are subject to referendum by the electors of the City. On June 30, 2011, the total outstanding debt of the City issued outside the 3% debt limit was \$74.1 million, excluding water bonds and sewer bonds that are deemed self-supporting.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

---

**7. LONG-TERM OBLIGATIONS (Continued)**

In addition to debt authorized within the 3% debt limit and debt authorized by special act of the General Assembly, Rhode Island General Laws Section 45-12-11 authorizes the State Director of Administration, upon petition by a municipality, to authorize such municipality to incur indebtedness in excess of the 3% debt limit whenever the Director shall determine that the sums appropriated by the municipality or its funds available are insufficient to pay the necessary expenses of the municipality. The City has not requested the State Director of Administration to authorize indebtedness of the City under Section 45-12-11.

***Bond Anticipation Notes***

The City had no bond anticipation transactions for the fiscal year ended June 30, 2011.

**8. LEASE COMMITMENT**

Property and equipment carried at approximately \$98,000 with approximately \$87,000 in accumulated depreciation, in the governmental activities is being acquired under capital lease arrangements.

The City is obligated under various capital and operating leases to make the following aggregate annual lease payments (in thousands): Lease expenditures approximated \$2,030 for fiscal year ended June 30, 2011.

	<u>Operating</u>	<u>Capital</u>
2012	\$ 2,030	\$ 5,549
2013	2,030	3,866
2014	2,030	3,899
2015	2,030	3,135
2016	2,030	2,369
Thereafter	2,030	4,870
	<u>\$ 12,180</u>	<u>23,688</u>
Less: Interest		<u>2,358</u>
Present Value of minimum payments		<u>\$ 21,330</u>

***Sale-Leaseback***

During fiscal year 2010, the City entered into a sale-leaseback transaction involving certain streetlights within the City. The transaction resulted in the City receiving \$14.5 million in payments and committing to a future stream of lease payments.

**9. RESTRICTED ASSETS AND RELATED LIABILITIES**

The State of Rhode Island enacted the Public Drinking Water Protection Act of 1987 (the Act) that empowers suppliers of public drinking water to levy a surcharge (the Water Quality Protection Surcharge) of \$0.01 per hundred gallons of water for all customers. The Act was amended numerous times and effective July 1, 2002, the surcharge increased to \$0.0292 per hundred gallons of water for all customers. In addition to the increase, the Water Supply Board will retain 36.1% of the surcharge in its Water Quality Protection fund, remit 57% to the State Water Resources Board and retain 6.9% for general operations.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

**9. RESTRICTED ASSETS AND RELATED LIABILITIES (Continued)**

The restricted assets are pooled with the cash and cash equivalents and investments of other funds maintained by the City. The earnings from pooled cash and cash equivalents and investments are allocated in proportion to each funds' balance.

**10. FUND EQUITY**

The following non-major funds had deficits as of June 30, 2011:

**Governmental:**

Federal Funds .....	\$ 1,201
Skating Rink .....	\$ 39
Workforce Development .....	\$302

These deficits are expected to be eliminated through transfers from the City's general fund and from other revenue sources.

As stated in Note 1, Fund Balance may be classified as one of five categories: Nonspendable, Restricted, Committed, Assigned, or Unassigned. Committed Fund Balance represents that amount of fund balance which can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority. The City's Council is considered to be the highest level of decision making authority. In accordance with the City Charter, the Council votes on the annual budget and on any resolutions proposed by the Committees. The passage of the Council's annual budget and proposed resolutions may result in the commitment of fund balance

The City of Providence does not currently have a spending policy regarding the order in which restricted, committed, assigned, and unassigned fund balances are spent when more than one amount is available for the expenditures incurred. Accordingly, by default, the City is following the policy prescribed by GASB Statement No. 54 which specifies that fund balance is reduced first by committed, then by assigned, then by unassigned when expenditures are incurred for purposes for which any unrestricted fund balance could be used. In all situations, the City considers restricted fund balance to be used first when available and when expenditures are incurred that meet the requirements of the restricted fund balance.

At June 30, 2011 Non-Spendable Fund Balance consisted of the following:

Loans receivable	\$ 16,140
Trust agreements	288
	<hr/> 16,428

At June 30, 2011 Restricted Fund Balance consisted of the following:

Public lands and parks	814
Law enforcement and fire prevention	847
Education	2,208
Federal programs	14,240
Trust agreements	14,490
Various future capital projects	3,654
Total Restricted Fund Balance	<hr/> 36,253

At June 30, 2011 Committed Fund Balance consisted of the following:

Committed for various capital projects	11,213
Committed for public lands and parks	981
Total Committed Fund Balance	<hr/> \$ 12,194

The Water Supply Board has restricted net assets of \$18 million at June 30, 2011. This represents the excess of restricted assets over liabilities payable from restricted assets unexpended water quality protection revenue.

**11. EMPLOYEE RETIREMENT SYSTEM**

The City contributes to two defined benefit pension plans - the Employees' Retirement System of the City of Providence (ERS), a single employer plan; and the Employees' Retirement System of the State of Rhode Island (the System), a cost-sharing multiple employer plan. The ERS is presented in the accompanying financial statements as a pension trust fund. A separate financial statement is not issued. The System is not included in the basic financial statements.

**(a) Employees' Retirement System of the City of Providence (ERS)**

- Plan Description and Contribution Information

Membership of the ERS plan consisted of the following at June 30, 2011, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits .....	2,998
Active plan members .....	
Vested.....	1,879
Non-vested .....	<u>1,108</u>
	<u>5,985</u>

Additional information as of the latest actuarial valuation follows:

Valuation Date	June 30, 2011
Actuarial cost method	Individual entry age method
Amortization cost method	Approximate level percent of payroll-open
Remaining amortization period	21 years (for original unfunded)
Asset valuation method	5-year smoothed market value
Actuarial assumptions:	
Investment rate of return	8.25% (Previously 8.5%)
Projected salary increases	2012-2013 – 0% (Previously 4.25%) Thereafter – 3.5% (Previously 4.5%)
Cost of living adjustments	3% to 6%

**Plan Description**

ERS is a single-employer defined benefit pension plan that covers most management employees of the City, except school teachers. The Plan provides retirement, disability and death benefits to plan members and their beneficiaries. Cost-of-living adjustments (COLA) are provided to retirees and beneficiaries at varying percentages ranging from 0% to 6%. Benefits are paid at varying amounts not to exceed 100% of final compensation for Class A (city) employees or 75% of final compensation for Class B (police and fire). Final compensation is the average of the highest three years of base compensation including longevity pay earned by a member during his total service as an employee.

ERS is governed by an Employee Retirement Board provided by the Providence Home Rule Charter. The ERS consists of elected officials, management and employee representation and provides for establishing rules and regulations and is responsible for the administration and operation of the city employee retirement system.

**Contributions**

Class A members and police officers are required to contribute 8% of their salary to the Plan. Class B members, other than police officers, are required to contribute 9.5% of their salary to the Plan. The Mayor and City Council contribute to the Plan at a rate of \$350 per year. Additionally, the City shall contribute from time to time amounts sufficient with the contributions of elected officials to provide the special pensions granted to them. The City's contributions to the ERS for the years ended June 30, 2011, 2010 and 2009 were \$56,333, \$49,123 and \$48,510 respectively.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

**11. EMPLOYEE RETIREMENT SYSTEM (Continued)**

*Funded Status of Plan*

The required supplementary information, which follows the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing overtime relative to the actuarial accrued liability for benefits. Listed below are the details of the funding progress of the ERS with a valuation date of June 30, 2010, which is the most recent report available.

**(a) Employees' Retirement System of the City of Providence (ERS) (Continued)**

Actuarial value of assets	421,963
Actuarial accrued liability	1,325,274
Unfunded (excess) actuarial accrued liability	903,311
Funded ratio	31.84%
Annual covered payroll	135,474
UALL (excess) as a percentage of payroll	666.78%

*Annual Pension Cost and Net Pension Obligation (NPO)*

The City's annual pension cost and net pension obligation to ERS for the current and two preceding years were as follows:

	<b>FY 2011</b>	<b>FY 2010</b>	<b>FY 2009</b>
Annual required contribution	\$ 56,380	\$ 51,299	\$ 48,509
Interest on NPO	11,200	10,837	10,571
Amortization of NPO	(7,899)	(7,733)	(7,543)
Annual pension cost	59,681	54,403	51,537
Contributions made	(56,333)	(49,123)	(48,410)
Increase in net pension obligation	3,348	5,280	3,127
Net pension obligation, beginning of year	132,767	127,487	124,360
Net pension obligation, end of year	\$ 136,115	\$ 132,767	\$ 127,487
Percentage of annual pension cost contributed	94.39%	90.29%	93.93%

**(b) Employees Retirement System of the State of Rhode Island**

*Plan Description*

All full-time teachers including superintendents, principals, school nurses and certain other school officials (classified employees) in the Providence School Department participate in the Employees Retirement System of the State of Rhode Island (System), a cost-sharing multiple-employer public retirement system. The System provides retirement, death and disability benefits, all of which are established by State statute. The plan issues a stand-alone publicly available financial report that includes the financial statements and required supplementary information. A copy of that report can be obtained from the State Employees Retirement Board, 40 Fountain Street, Providence, Rhode Island 02903, or by accessing their website at [www.ersri.org](http://www.ersri.org).

The ERS was established under section two of chapter 2334 of the Rhode Island Public Laws of 1951 and placed under the management of the Retirement Board for the purpose of providing retirement allowances for employees of the State of Rhode Island under the provisions of chapters 8 to 10, inclusive, or title 36, and public school teachers under the provisions of chapters 15 to 17, inclusive, of title 16 of the Rhode Island General Laws. The plan provides a two tier benefit structure referred to as schedules A and B as follows:

## CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements

June 30, 2011 (in thousands)

### 11. EMPLOYEE RETIREMENT SYSTEM (Continued)

**Schedule A Benefits:** Schedule A benefits are available to members who possess 10 years or more of contributory service on or before July 1, 2005. Schedule A provides unreduced benefits of 1.7% of earnings for each of the first ten years of service; 1.9% for each of the next ten years of service; 3.0% per year for each of the next fourteen years; and 2% for the 35th year. Joint and survivor options are available as well as the Service Retirement Allowance (SRA) Plus option that provides for the payment of a larger benefit before the attainment of age 62 and a reduced amount thereafter. The reduced amount is equal to the benefit before age 62, including cost-of-living increases, minus the member's estimated social security benefit payable at age 62. The maximum benefit is 80% of "final average" (FAC) earnings after 35 years of service. Final average earnings are the three highest consecutive years of earned salary excluding overtime, bonuses, or severance pays. Such benefits are available to members at least age 60 with 10 years of service, or after 28 years at any age. On the third January after retirement, a cost-of-living increase of 3% (compounded annually) is provided independent of actual changes in the consumer price index. The plan also provides nonservice-connected disability benefits after five years of service; service-connected disability pensions with no minimum service requirements; vested benefits after ten years of service; survivor's benefits for service connected death; and certain lump sum death benefits. For Schedule A members who are not grandfathered, i.e., members who had at least 10 years of creditable service at June 30, 2005 but who were not eligible to retire on September 30, 2009, benefits are based on Schedule A for services through September 30, 2009 and on Schedule B for services after September 30, 2009. Maximum benefit is 80% of FAC.

**Schedule B Benefits:** Schedule B benefits are provided to members who have less than 10 years of contributory service on or before July 1, 2005. For Schedule B members, the plan provides unreduced benefits of 1.6% of earnings for each of the first ten years of service; 1.8% for each of the next ten years; 2.0% per year for years 21 through 25 inclusive; 2.25% per year for years 26 through 30 inclusive; 2.5% per year for years 31 through 37 inclusive and 2.25% for the 38th year. Only single life, and joint and survivor options are available. The maximum benefit is 75% of his or her average highest three years of compensation after 38 years of service. Such benefits are available to members at least age 65 with 10 years of service, or after 29 years of service and age 59. Actuarially reduced retirement is available at age 55 and 20 years of service, the benefit is reduced actuarially for each month that the age of the member is less than sixty-five years. On the month following the third anniversary date of the retirement, and on the month following the anniversary date of each succeeding year, a cost of living increase of 3% (compounded annually) or the percentage of increase in the Consumer Price Index for all Urban Consumers (CPI-U) as published by the United States Department of Labor Statistics, determined as of September 30 of the prior calendar year, whichever is less is provided for Schedule B members.

The ERS plan also provides a survivor benefit to public school teachers via a "Teachers Survivor Benefits Fund" in lieu of Social Security. The details of the survivor death benefits and other death benefits are provided in the financial section of the Annual Financial Report of the Employees' Retirement System of Rhode Island for the fiscal year ending June 30, 2009 which can be found at [www.ersri.org](http://www.ersri.org).

#### **Funding Policy**

Rhode Island general laws set the contribution rates for participating plan employees at 9.5% of salary. Annual contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as percentage of participants' payroll. The School Department was required to contribute 11.25%, 11.25%, and 11.89% for all full-time employees for fiscal years 2011, 2010 and 2009, respectively. The required contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of June 30, 1999 over 30 years; and (c) interest on the unfunded frozen actuarial liability. Normal cost is determined using the entry age normal cost method with frozen initial liability. A variety of significant actuarial assumptions are used to determine the standardized measure of the pension benefit obligation and these assumptions are summarized below:

- A. Mortality – 1994 Group Annuity Mortality Table.
- B. Investment return – 8.25%, compounded annually.
- C. Salary increase – Salaries will increase at a rate of 4.00% – 12.75%, compounded annually. (previously 4.00%- 13.25)

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

**11. EMPLOYEE RETIREMENT SYSTEM (Continued)**

D. Retirement age – 75% of Schedule B members who reach the age of 59 with 29 years of service before age 65 are assumed to retire when first eligible. 75% of other members are expected to retire when first eligible, at age 65 with 10 years of service. Because of enactment of Article 7 in 2009, the retirement assumption was modified for members not eligible for retirement by October 1, 2009. Members who would have been assumed to retire prior to age 62 under the rules in effect before the enactment of Article 7 are assumed to retire when first eligible for an unreduced benefit under Article 7.

E. Cost of living adjustments – Schedule A Members: 2.5%. Schedule B Members: 2.35%. (previously 2.5%)

As prescribed by Rhode Island general law, the State pays the entire portion of the annual required contribution attributable to the costs of contributions deferred by the State in prior years plus 40% of contributions assessed to employers on payroll not reimbursable through Federal programs. This resulted in contribution rates paid by the State on behalf of the School Department totaling \$10.4 million for the fiscal year ended June 30, 2011. These amounts are included as revenues and expenditures/expenses in the accompanying financial statements.

The amounts required and contributed to the plan are as follows:

Years Ending June 30,

2011.....	\$15,130
2010.....	\$17,900
2009.....	\$18,200

Subsequent to June 30, 2011, the State of Rhode Island passed legislation under the Pension Reform Security Act (Act) of 2011. The legislation made changes to the current pension plan provisions noted above and such changes will be effective July 1, 2012.

**(e) Other City Pension Costs**

The City is required to make contributions to the National Pension Plan of the Laborers' International Union of North America, a multi-employer plan. The pension cost charged to the general fund for these purposes amounted to \$3.1 million for the year ended June 30, 2011.

**12. POSTEMPLOYMENT BENEFITS**

***Plan Description***

The City's Post-Employment Medical Benefit Plan is a single-employer defined benefit postretirement health insurance program administered by the City. The City provides for a portion of the lifetime health care benefits to substantially all retired employees and their spouses. Health care benefits were paid to approximately 4,287 retired participants and spouses during the fiscal year ended June 30, 2011 and are paid substantially on a pay as you go basis. Health care benefits are provided through the City's self-insured health insurance program covering both active and retired employees. The financial activity of these programs is reported as an internal service fund. The Plan does not issue a separate financial report. These benefits are provided for and amended under various provisions of Rhode Island General Law, City Ordinances and the terms of collective bargaining agreements.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

**12. POSTEMPLOYMENT BENEFITS (Continued)**

*Funding Policy*

The contribution requirements of plan members and the City are established and may be amended through provisions of Rhode Island General Law, City Ordinances and through collective bargaining. The required contribution is based on pay as you go financing requirements. For fiscal year 2011 the City contributed approximately \$30,009 to the health insurance program on behalf of retirees. Plan members contributed approximately \$4,593, or 13.27% of the total contributed. The plan can cover 100% of the costs of the benefit, however, retirees and their spouses are potentially required to fund a portion of the Plan costs depending upon the class an employee has been assigned and their date of hire. Current employee co-share for the retiree health insurance benefit requires a co-share of .01 of final average salary with a maximum limit of \$400.

*Annual OPEB Cost and Net OPEB Obligation*

The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the provisions of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation (amounts in thousands):

Annual contribution	\$ 63,906
Interest on net OPEB obligation	2,559
Adjustment to annual required contributions	<u>(2,028)</u>
Annual OPEB cost (expense)	64,437
Contributions made	<u>30,009</u>
Increase in net OPEB obligation	34,428
Net OPEB obligation - beginning of year, as restated	<u>63,980</u>
Net OPEB obligation - end of year	<u><u>\$ 98,408</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 and the two preceding years were as follows (dollar amounts in thousands):

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2011	\$ 64,437	46.57%	\$ 98,408
6/30/2010	\$ 79,947	36.29%	\$ 63,980
6/30/2009	\$ 43,282	80.91%	\$ 13,047

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

**12. POSTEMPLOYMENT BENEFITS (Continued)**

***Funding Status and Schedule of Funding Progress***

The unfunded actuarial accrued liability was determined using the level dollar thirty year open amortization basis.

Actuarial Valuation Date Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b)-(a)	Funded Ratio (a)/(b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b)-(a)]/(c)
7/1/2010	\$ 1,040	\$ 1,212,615	\$ 1,211,575	0.09%	\$ 267,593	452.77%
7/1/2009	\$ 1,040	\$ 1,498,491	\$ 1,497,451	0.07%	\$ 268,871	556.94%
7/1/2008	\$ 1,035	\$ 593,903	\$ 592,868	0.17%	\$ 274,827	215.72%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, motility, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

***Actuarial Methods and Assumptions***

Projections of the benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2010, actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.0% rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 9% initially, reduced by decrements to an ultimate rate of 5% after five years. Both rates included a 4.5% inflation assumption. The actuarial value of the assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at July 1, 2011, was 30 years.

**13. CONTINGENCIES**

The City is involved in numerous lawsuits, claims and grievances arising in the normal course of business, including claims for property damage, personal injury and personnel practices, disputes over property condemnation proceedings and suits contesting the legality of certain taxes. In the opinion of City officials, the ultimate disposition of these matters will not have a material adverse effect on the City's basic financial statements. Included in the government-wide financial statements is a provision for claims that are deemed probable.

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

June 30, 2011 (in thousands)

**13. CONTINGENCIES (Continued)**

The City participates in a number of federally-assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. In the opinion of City officials, liabilities resulting from such disallowed expenditures, if any, will not be material to the accompanying basic financial statements.

The City is committed under contracts for outstanding project approximating \$15.8 million as of June 30, 2011.

**14. RELATED PARTY TRANSACTIONS**

The City leases certain properties from the PPBA. The estimated future minimum lease payments required under these agreements coincide with the principal and interest payments on bonds issued by the PPBA. The leases terminate between 2011 and 2028. The City, in turn, subleases a portion of this property to the School Department. At the expiration of the leases, the City, at its option, can purchase the properties for a nominal amount (see Notes 5 and 7).

**15. RISK MANAGEMENT**

The City is self-insured in most areas of risk, subject to certain third-party “stop loss” coinsurance of \$300 per claim for health insurance. Self-insured risks include general liability, property and casualty, workers’ compensation, unemployment and employee health and life insurance claims. The City does, however, purchase commercial insurance for all buildings leased from the PPBA. The City’s Counsel defends the City in any lawsuits that arise from the normal course of operations. At no time during the past three years have insurance settlements exceeded coverage.

The City’s health insurance program provides coverage to the City’s employees and retirees through Health mate and Blue Cross - Blue Shield of Rhode Island (BCIBS). In 1997, the City first went to a self-insured program with BC/BS and United Health Care. BC/BS and United Health Care act as third-party agents for the City in the payment of the various claim plans used by the City. Costs incurred for the operation of BCIBS and United Health Care plans are accounted for in an internal service fund. Costs to the City are paid by all funds based on “working rates” established by a third party medical consultant.

The City is required to record liabilities for self-insured claims if it is probable that a loss has been incurred and the amount can be reasonable estimated. The City has established a liability based on historical trends of previous years, where available, and attorney’s estimates of pending matters and lawsuits in which the City is involved.

Changes in the risk management liability for the fiscal years ended June 30, 2011 and June 30, 2010 are below. Legal claims and incurred but not reported claims for health benefits are recorded in the City’s internal service fund. Accrued workers’ compensation claims are recorded on the entity-wide statements. This schedule presents the activity for all self-insured risks.

	<u>2011</u>	<u>2010</u>
Beginning of year .....	\$25,408	\$24,693
Incurred claims .....	97,802	98,364
Less: payments of claims attributable to events of both the current and prior fiscal years:		
Health, legal and workers’ compensation .....	<u>85,175</u>	<u>97,649</u>
Total .....	<u>\$ 38,035</u>	<u>\$25,408</u>
Legal claims.....	\$29,909	\$17,159
Health – IBNR.....	4,606	4,894
Workers’ compensation.....	<u>3,520</u>	<u>3,355</u>
Total.....	<u>\$ 38,035</u>	<u>\$25,408</u>

**CITY OF PROVIDENCE, RHODE ISLAND**

Notes to Financial Statements

**16. RECLASSIFICATIONS**

*Governmental Activity*

As stated in Note 1, during the fiscal year ended June 30, 2011 the City implemented GASB Statement No. 34. Implementation of this Statement resulted in the consolidation of various funds into the City's General Fund (Fund basis). The funds being consolidated were previously reported with Other Special Revenue Funds. However, these Funds no longer meet the definition of Special Revenue Funds due to the fact that these funds did not have specific revenue sources that were either committed or restricted.

The following represents the reclassification which resulted from the implementation of GASB Statement No. 54.

RESTATED

Governmental Fund fund balance at June 30, 2010, as originally stated	\$	3,458
Other Special Revenue Funds combined with General		
Fund per GASB 54 requirements		<u>10,893</u>
General Fund fund balances at June 30, 2010, as restated	\$	14,351

*Government Wide*

Government wide net assets at June 30, 2010 have been restated due to a change in other post-employment benefit obligations. The detail of the restatement and impact on net asset is as follows:

Governmental activity net assets at June 30, 2010, as originally stated	\$	(21,070)
Understatement of other post-employment benefit obligations		<u>(9,997)</u>
Governmental activity net assets at June 30, 2010, as restated	\$	(31,067)

**CITY OF PROVIDENCE**  
**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
**JUNE 30, 2011**

**Schedules of Revenues and Expenditures - Budget and Actual – General and School Funds**

The City employs the following procedures in establishing the General Fund budgetary data reflected in the accompanying required supplementary information:

- At least sixty days prior to July 1, the Mayor submits a proposed operating budget for the upcoming fiscal year to the City Council. The operating budget includes proposed expenditures and the means of financing appropriations over expected revenues.
- The final budget is legally enacted through passage of an ordinance.
- The Mayor is authorized to make minor transfers of budgeted amounts between departments. Significant budget revisions or transfers must be approved by the City Council.

The General and School funds are the only governmental funds that have legally adopted annual budgets. The “actual amounts” presented in the accompanying schedules are presented on a budgetary basis.

The budget for the School Fund is prepared annually and approved by the Providence School Board. The amount of the annual transfer from the General Fund is ultimately determined through the adoption of the General Fund budget. This appropriation does not lapse at year-end.

The difference between the amounts shown in the accompanying schedules and those shown in the basic financial statements relate solely to reclassifications made between revenues and expenditures as presented below (in thousands):

	General Fund	School Fund
Total budgetary revenues and transfers per schedule	\$ 448,567	\$ 307,441
Reclassification of:		
On-behalf payments paid directly by the State of Rhode Island Teachers' Retirement System		10,439
Appropriation of prior year surplus	(1,378)	
Bond proceeds	30,545	
Transfer from medical trust netted with expenditures	(7,581)	
Revenue from various other special revenue funds combined with General Fund per GASB 54 requirements	11,112	
Total revenues and transfers per financial statements	\$ 481,265	\$ 317,880
 Total budgetary expenditures and transfers per schedule	 \$ 455,339	 \$ 307,441
Reclassification of:		
On-behalf payments paid directly by the State of Rhode Island Teachers' Retirement System		10,439
Transfer from medical trust netted with expenditures	(7,581)	
Expenses and transfers of various other special revenue funds combined with General Fund per GASB 54 requirements	13,588	
Refunding of bonds and related expenses	30,545	
Total expenditures and transfers per financial statements	\$ 491,891	\$ 317,880

## OTHER SUPPLEMENTARY INFORMATION

# CITY OF PROVIDENCE

## NONMAJOR GOVERNMENTAL FUNDS

### *SPECIAL REVENUE FUNDS*

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

**Neighborhood Housing Fund** – is used for Administrative and Program Expenses primarily related to Housing Repair Loan Programs and Downpayment/Closing Assistance Programs. Also income related to Tax Stabilization Agreements.

**Federal Funds Fund** – is used to account for Administrative and Program Expenses and Program Income primarily related to the following federally funded programs: Community Development Block Grant, Emergency Shelter Grant and Housing Opportunities for Persons with Aids.

**PEDC Fund** - is used to account for Administrative and Program Expenses and Program Income primarily related to loans and grants for business start-ups, expansion, and operating costs (Industrial, Commercial and Operating Accounts).

**PRA Fund** – Is used to account for Administrative and Program Expenses and Program Income primarily related to the sale, rent and upkeep of Providence Redevelopment Agency controlled land and buildings. Expenses related to implementation of redevelopment projects.

**Other P&D** – is used to account for Good Faith Deposits – Deposits to secure vacant lots of the PRA until closing. There is also the Lead Fund which is primarily for expenses and income related to federally funded programs that supply loans to homeowners for remediation work, income from federal grants and City Bond dollars.

**Other Special Revenue Funds** – is used to account for various smaller special revenue funds used by the City.

**Skating Rink** – is used to account for the operations of the Skating Rink.

**WDO** – is used to account for proceeds received from the federal government for workforce development services.

**Capital Proceeds Fund** – is used to account for various smaller operations. It primarily consists of a Trust Fund that has spending stipulations for various City operations, and proceeds received or public safety and seizure.

## STATISTICAL SECTION

This part of the City of Providence, Rhode Island's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

### Contents:

#### *Financial Trends*

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

#### *Revenue Capacity*

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

#### *Debt Capacity*

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

#### *Demographic and Economic Information*

These schedules offer demographic and economic indicators to help the reader understand the environment within the government's financial activities take place.

#### *Operating Information*

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.
