| Class B Police |  | 63.00\% |  | 64.44\% |

2. Comments on the valuation results as of June 30, 2010 are given in Section IV and the appropriation payable by the City during the fiscal period beginning July 1, 2011 is set out in Section V.
3. The valuation was based on the assumptions as outlined in Schedule B. All assumptions remained the same as the June 30, 2009 valuation.
4. Schedule D of this report presents a summary of the main provisions of the act governing the system, as interpreted in preparing the actuarial valuation. In particular, the valuation reflected the following with respect to annual cost of living adjustments (COLAs):

* There are 40 Class B employees who retired as Non-Union participants and are included in the counts above but each has a simple 3\% COLA on the first $\$ 12,000$ of the annual benefit.
** Excludes elected officials and 6 Class A and B employees who retired prior to June 30, 2010 but were not processed on the June 30, 2010 payroll.

There is a three-year deferral of the initial COLA for current active members when they retire.

## SECTION II - EMPLOYEE DATA

1. Employee data were furnished by the City Controller.
2. Tables 1 and 2 of Schedule E show the number and annual salaries of active members, while the remaining tables of Schedule E show the number and annual retirement allowances of retirees and beneficiaries as of June 30, 2010.

## SECTION III - ASSETS

1. The amount of the assets taken into account in the valuation was obtained from information submitted by the City Controller.
2. The market value of the assets of the system as of June 30, 2010 on a "cash basis" was $\$ 316,485,233$. We converted this to an "accrual basis" value of $\$ 368,448,768$ by adding $\$ 51,963,535$, the discounted value of the City's $\$ 56,380,436$ contribution appropriated for the July 1, 2010 to June 30, 2011 fiscal year and assumed deposited on June 30, 2011.
3. The amount of assets used for valuation purposes of $\$ 427,890,901$ was determined on an "accrual basis" by the use of a five-year moving average of market values. Schedule C outlines the calculation of this value.

## SECTION IV - COMMENTS ON VALUATION

1. Schedule A of this report presents the results of the valuation and shows the present and prospective assets and liabilities of the retirement system of June 30, 2010. Actuarial accrued liabilities consist of $\$ 366,866,155$, which equals the actuarial accrued value of prospective benefits of active members; plus $\$ 878,682,629$, which equals the present value of obligations to retired members and their beneficiaries; plus $\$ 10,826,650$, which equals the value of contributions of non-active members remaining in the fund. These liabilities amount to $\$ 1,256,375,434$, which is met by the City and members through annual contributions. Against these prospective liabilities, the system has present assets of $\$ 427,890,901$, leaving $\$ 828,484,533$ as the unfunded accrued liability.
2. Section V discusses the portion of the total prospective City obligation we recommend for current payment.
3. Schedule G of the report discusses experience gain/(loss) in the last year. The system's actual experience was better than expected, resulting in a gain of $\$ 5,447,807$. Assets exceeded the expected rate of return, resulting in a gain of $\$ 4,953,575$. Gains from liability were $\$ 494,232$. Gains from changes in assumptions decreased the unfunded liability by $\$ 2,657,168$. For more detail on gain/(loss), please see Schedule G.
4. The actuarial value of assets exceeds the market value by about $\$ 59$ million, due to the deferral of past losses under the asset smoothing method.

## SECTION V - APPROPRIATION PAYABLE BY CITY

1. Schedule A gives the basis for determining the appropriation payable by the City during the fiscal period beginning July 1, 2011. In accordance with the law governing the operation of the retirement system, we recommend contribution rates of $21.98 \%$ for Class A members, 90.63\% for Class B Fire and $64.44 \%$ for Class B Police. These rates are based on amortizing the unfunded accrued liability as of June 30, 2010 on a level percentage-of-payroll basis over a 29-year period. If these rates are applied to the annual compensation of active members in this actuarial valuation, increased by $\$ 492,606$ to amortize the remaining deferred contribution as of June 30, 1996 over a 30-year period, and adjusted to a monthly basis, contributions payable by the City for the fiscal year beginning July 1, 2011 are as shown below:

| Group | Amount |  |
| :--- | ---: | ---: |
| Class A: |  |  |
| General | $\$$ | $7,431,115$ |
| School |  | $7,022,869$ |
| School Crossing Guards |  | 221,426 |
| Water |  | $2,555,786$ |
| Workforce Development (JTPA) |  | 277,557 |
| Fire Civilians |  | 799,635 |
| Police Civilians | $\$$ | $18,499,708$ |
| Total Class A |  |  |
| Class B: | $\$$ | $21,296,924$ |
| Fire |  | $19,132,293$ |
| Police | $\$$ | $40,429,217$ |
| Total Class B | $\$$ | $58,928,925$ |
| Grand Total |  |  |

2. The assets and liabilities in the valuation do not take the elected officials' pensions into account. Therefore, in addition, the City should contribute an amount sufficient to provide for the payment of the special pensions to elected officials on a pay-as-you-go basis. Any deficiency which arises on account of elected officials whereby the contribution paid for a fiscal year is not sufficient to cover the special pensions paid that year to such retired members should be met by a special contribution by the City.

## SECTION VI - ACCOUNTING INFORMATION

Based on our interpretation of Statement 25 of the Governmental Accounting Standards Board, the results of the June 30, 2009 and June 30, 2010 actuarial valuations are shown below:

DEATHS AFTER RETIREMENT: Based on the RP-2000 Mortality Table producing the following life expectancies.

| Age | CLASS A and CLASS B |  |  |  |
| :---: | :---: | :---: | :---: | :---: |

VALUATION METHOD: Individual entry age method. Gains and losses are reflected in the period remaining to liquidate the unfunded accrued liability.

ASSET VALUATION METHOD: Five-year smoothed market value. The actuarial value of assets is determined according to the following general formula, provided such value is within a $20 \%$ corridor of the market value:
$\mathrm{VA}=\mathrm{MV}-.8 \mathrm{I}_{1}-.6 \mathrm{I}_{2}-.4 \mathrm{I}_{3}-.2 \mathrm{I}_{4}$
where
VA $=$ Valuation assets.
MV $=$ Market value of assets as of the valuation date.
$\mathrm{I}_{\mathrm{n}} \quad=\quad$ Investment gain (loss) during $\mathrm{n}^{\text {th }}$ year preceding the valuation date.

PURCHASED SERVICE LOAD: Due to a lack of purchased service data, loads have been added on to Fire and Police service. The loads were determined by retirement trends found in the period from July 1, 2004 to June 30, 2006 and are as follows:

Fire Service Load $=+0.63$ years of service
Police Service Load = +2.11 years of service
Class A did not receive a load as trends showed the impact of purchased service was insignificant.

## Early Retirement Allowance

Conditions for Allowance

Amount of Allowance

The minimum age for early service retirement for Class A employees hired on or after July 1, 2004 is age 55 and at least 10 years of service. Other employees will not receive early retirement benefits.

For Class A members hired between July 1, 2004 and June 30, 2009:
The employees' normal retirement benefit reduced by $5 / 12 \%$ per month for each month between retirement commencement and age 60.

## For Class A members hired on or after July 1, 2009:

The employees' normal retirement benefit reduced by 5/12\% per month for each month between retirement commencement and age 62.

# Deferred Retirement Allowance 

Conditions for Allowance
A member who has completed at least 10 years of service may retire and receive a deferred retirement allowance commencing at the minimum age for normal service retirement.

Amount of Allowance

Provided by Member

Provided by City

Ordinary Disability Retirement Allowance
Conditions for Allowance For Police:
After 10 years but less than 20 years of service.

## For All Others:

After 10 years of service, a member under the minimum age for service retirement may be retired for disability upon his own request or upon the request of the head of the department employing him.

Amount of Allowance
Provided by Member

Provided by City If the member is a Class A member:
A pension which when added to his normal annuity, exclusive of any excess annuity, will give a total retirement allowance of $9 / 10$ of $1 / 50$ of his final compensation for each year of total service which would have been credited had he continued in service to the minimum age for service retirement, but such retirement allowance, exclusive of any excess annuity, is not to exceed 45\% of his final compensation.

## For Police:

A pension which when added to his normal annuity will give a total retirement allowance, equal to a percentage of his final compensation, as described in the following table:

| Eligible Years of Service |  | Percentage |
| :--- | :--- | ---: |
| 10 years of service |  | $22.50 \%$ |
| 11 years of service |  | $24.75 \%$ |

| 15 years of service |  | $33.75 \%$ |
| 16 years of service |  | $36 \%$ |
| 17 years of service |  | $38.25 \%$ |
| 18 years of service |  | $40.50 \%$ |
| 19 years of service |  | $42.75 \%$ |

## For All other Class B:

A pension which when added to his normal annuity, exclusive of any excess annuity, will give a total retirement allowance of $9 / 10$ of $1 / 40$ of his final compensation for each year of total service which would have been credited had he continued in service to the minimum age for service retirement, but such retirement allowance, exclusive of any excess annuity, is not to exceed $45 \%$ of his final compensation.

Accidental Disability Retirement Allowance
Conditions for Allowance
A member may be retired on account of accidental disability occurring in the performance of duty regardless of age or length of service.

Amount of Allowance
Provided by Member
Non-Police:
An annuity that is the actuarial equivalent of his accumulated contributions at the time of his retirement.
Police:
In light of the member's receipt of the pension stated
below, the only annuity payable is the actuarial
equivalent of any accumulated additional contributions at
the time of his retirement.
and
Provided by City
For All:
A pension of 66-2/3\% of his final compensation, but not
less than the service retirement allowance. Upon the
death of a member within 5 years after accidental
disability retirement as a result of an accident while in
the performance of duty, a pension of one-half of the
member's final compensation is paid to his widow until
she dies or remarries, at which point the pension is paid
to his child or children until they attain age 19 .

## Accidental Death Benefit

Conditions for Benefit

Amount of Benefit

An accidental death benefit is payable upon the death of any member due to an accident in the performance of duty.

A pension of one-half of the member's final compensation is paid to his widow until she dies or remarries, at which point the pension is payable to his child or children until they attain age 19. If there are no other dependents, the pension is payable to his dependent parents. In addition, a lump sum payment of the member's accumulated contributions is made.

Withdrawal or Ordinary Death Benefit

Benefit upon Death after Retirement

Minimum Benefits

A member who withdraws prior to eligibility for retirement receives his accumulated contributions. Should a member die before retirement his accumulated contributions are paid to his estate or beneficiary; provided, however, if he has attained minimum retirement age and has not made an optional election as described below, and is survived by a spouse, such spouse is entitled, in lieu of the return of the member's accumulated contributions, to a benefit equal to that which would have been payable to such spouse upon the death of the member had the member retired on the day of his death and elected to receive a benefit under the provisions of Option 2, as described below, and nominated his spouse as his designated beneficiary, except that for a Class B member the benefit to the spouse shall not be less than $67112 \%$ of the benefit that would have been paid to such retired member without reduction.

## For Class A:

Benefits under any option. Also, the excess, if any, of the member's accumulated contributions at retirement over all payments paid out on the member's account.

## For Class B:

Upon the death of a Class B pensioner, $67112 \%$ of his/her retirement allowance is paid to his widow/widower until he/she dies or remarries, at which point the benefit is paid to any dependent children until they attain age 18. Also, the excess, if any, of the member's accumulated contributions at retirement over the total of all payments paid out on the member's account.

The minimum monthly retirement allowance is $\$ 600$, prorated for members whose credited service at retirement is less than 25.

Options at Retirement

Options upon Attainment of Minimum Retirement Age

At retirement, a member may elect to convert his allowance into a benefit of equivalent actuarial value in accordance with one of the options described below:

Option 1. A reduced retirement allowance payable during the retired member's life, with a provision that in case of death before such payments have equaled the present value of his retirement allowance at the date of retirement, the balance shall be paid to the heirs or assigns; or

Option 2. A reduced retirement allowance payable during the retired member's life, with a provision that after his death it shall be continued during the life of and paid to the person nominated by him by written designation at the time of his retirement; or

Option 3. A reduced retirement allowance payable during the retired member's life, with a provision that after his death an allowance at one-half the rate of his reduced allowance shall be continued during the life of and paid to the person nominated by him by written designation at the time of his retirement; or

Option 4. A reduced retirement allowance payable during the retired member's life, with some other benefit payable after his death, provided that the benefit shall be certified by the actuary and approved by the retirement board. This Option is not available to Police who retire on an Accidental Disability Allowance.

Class B members may not elect Options 2 or 3.
Married Class B members may also not elect Option 1.
Any member who has attained minimum retirement age may elect, in accordance with Option 2, 3, or 4 above, a reduced retirement allowance with provision for benefits to a person having an insurable interest in his life, other than his wife. The benefit is determined as of the member's date of death or retirement, if prior thereto, in accordance with the provisions of the option selected and is in lieu of the return of the member's accumulated contributions if death occurs during the member's continuance in service after attainment of minimum retirement age. Such election is irrevocable after the option becomes effective unless the designated

The initial COLA payment is deferred until the January 1 that occurs three years after the member's retirement date.

Any person who has served as Mayor or City Councilman for at least eight full legislative years is entitled to a retirement allowance on the basis of such service as an elected official upon attainment of age 52 or the completion of 20 consecutive years as an elected official, whichever is earlier, or the occurrence of total and permanent disability prior thereto.

Such retirement allowance is currently $\$ 350$ for each year of service, provided that no more than 20 years of such service are to be used in determining the allowance.

Upon the death of any such elected official, benefits are payable in accordance with the Class A provisions of the act.

An elected official may elect to withdraw his accumulated contributions in lieu of his rights to the allowance based on service as an elected official.

## 2 - CONTRIBUTIONS

Provided by Members

Provided by City

For Class A: 8\% of their salaries.
For Police: 8\% of their salaries
For all other Class B Members: $912 \%$ of their salaries.
The Mayor and members of the City Council are required to contribute at the rate of $\$ 350$ per year.

The City makes the balance of contributions needed to fund the system.

In addition the City shall contribute from time to time amounts sufficient with the contributions of elected officials to provide the special pensions granted to elected officials.
