SUMMARY

Project Description

The applicant is seeking relief from Table 4-1 of the City of Providence Zoning Ordinance requiring 3,500 SF of lot area to build a 2-family dwelling in an R-3 zoning district. The subject property has 3,200 SF of lot area, therefore the applicant requires relief of 300 SF

Discussion

The applicant had applied for an administrative modification which received an objection. Based on plans provided, it appears that the relief is requested due to the unique character of the property where the lot's size is within 10% of the 3,500 SF requirement for a two family dwelling, which makes it eligible for an administrative modification as opposed to a variance. Per the radius map, the neighborhood's character is made up of similar sized lots with some occupied by

buildings with more than one unit.

Therefore, granting the variance would not have a negative effect on neighborhood character. No additional relief would be required to develop the lot as proposed.

Given the neighborhood's character, denial of the request would prevent the lot from being developed based on what can be accommodated on site which could be construed as more than an inconvenience.

Recommendation

Based on the foregoing discussion, the DPD recommends that the requested relief be granted.
