PURPOSE
The purpose of this policy is to provide procedures relating to the identification of Department personnel.

POLICY
It is the policy of the Providence Police Department to provide means and methods by which all sworn and non-sworn personnel may be positively identified as members of the Department.

DISCUSSION
In order to enhance the ability of our personnel to perform their duties, promote public confidence, and make personnel more accountable for their actions, it is imperative that there is a system in place that addresses the identification of Department personnel.

Furthermore, this identification system must address the identification of former employees, agency volunteers, student interns, and any persons whose actions may be construed as connected with the official business of the Department.

Unless for reasons or circumstances otherwise stated in this policy, Department personnel shall provide their identification card and name, rank/position and Federal Identification Number, as applicable, in a respectful and courteous manner, to any person requesting their identification in connection with their official Department duties.
