

Toilet Paper Tube Butterfly Ornament

Here's What You Will Need

- Toilet Paper Rolls (at least 1 per butterfly)
- Paint
- Popsicle Sticks (Colored or Painted)

Tools

- Paintbrush
- Ruler
- Pencil
- Scissors
- Super glue (or your choice of glue)

Step 1 - Prep and paint the toilet paper tubes

Measure and mark your tube at whatever width you would like your wings to be – probably $\frac{1}{2}$ to 1 inch. Mark your measurements and cut small slits so you can locate them after painting. Paint your tube, use glitter or fun holiday colors! Be creative. Allow to fully dry.

Step 2 – Cut the toilet paper tube

Using the premade slits, cut the tube.

Step 3 – Glue the butterfly together

Arrange the pieces into a butterfly shape. Use half of a dark colored or painted popsicle craft stick as the body and tuck it in between the wings. Glue all pieces together and allow the glue to dry completely.

Add a string or ribbon through the upper wing openings and tie the ends, leaving a loop opening. Now you have a special new ornament for your holiday décor!
