Where to fill your prescription

Choosing where to fill your prescription depends on whether you are ordering a short-term or long-term medication:

Short-term medications are generally taken for a limited amount of time and have a limited amount of refills, such as an antibiotic. You can fill prescriptions for these medications at any pharmacy in the CVS Caremark retail network.

- Choose from more than 68,000 network pharmacies nationwide, including independent pharmacies, chain pharmacies and 7,700 CVS/pharmacy locations.
- Find a participating pharmacy at www.caremark.com

Tip: To avoid filling out claims paperwork, bring your Prescription Card with you when you pick up your prescription, and use a pharmacy in the CVS Caremark retail network.

Long-term medications are taken regularly for chronic conditions, such as high blood pressure, asthma, diabetes or high cholesterol. You will generally save money by using mail service for these prescriptions.
