# STEVEN M. PARÉ Commissioner of Public Safety Acting Chief of Department

JORGE O. ELORZA Mayor

# Department of Public Safety, Fire Department "Building Pride in Providence"

Welcome to the Providence Fire Department:

The Providence Fire Department is the second oldest continuously operating professional fire department in the country. The Department is a full-service fire and emergency medical service agency that provides basic and advanced life support, fire prevention, fire suppression, technical rescue, and hazardous material response. In addition, the Department conducts arson investigations and building plan reviews, enforces state and local fire and life safety codes, and administers public fire education programs.

In 2021, the Providence Fire Department consisted of 7 Advanced Life Support Rescue Companies, 12 Engine Companies, 7 Ladder Companies, and 1 Special Hazard Unit, all strategically located in Providence neighborhoods. The Department is equipped to respond to all fire, medical emergency, natural disaster, hazmat, and terroristic events that occur within Providence and its surrounding communities.

On behalf of the Providence Fire Department, I present to you the Department's 2021 Annual Report that highlights the Department's many accomplishments, fire and emergency medical calls for service, trainings, and fire prevention activities. The COVID-19 pandemic has continued to present many challenges to all first responders, but we have prevailed, and this report is a testament to the men and women who proudly serve as Providence Firefighters.

I want to extend my sincere thanks and appreciation to every sworn and civilian member of the Providence Fire Department for their outstanding work in keeping the citizens of Rhode Island's capital city safe.

Sincerely yours,

Steven M. Paré

Commissioner of Public Safety Acting Chief of Department

# PROVIDENCE FIRE DEPARTMENT

### **Providence Fire Department**

### 2021 Annual Report

Established in 1854 the Providence Fire Department is the second oldest continuously operating professional fire department in the country. The Department is a full-service fire and emergency medical service agency that provides basic and advanced life support, fire prevention, fire suppression, technical rescue, and hazardous material response. In addition, the Department conducts arson investigations and building plan reviews, enforces state and local fire and life safety codes, and administers public fire education programs.

### Accomplishments for 2021

In 2021, the Providence Fire Department responded to 45,701 total calls for service. Of the total calls, 72% were emergency medical services related. The calls are composed of 24,679 advanced life support and 8,250 basic life support calls for service. In addition, the Fire Prevention Bureau's Arson Squad conducted 359 fire investigations. As always, Providence Firefighters answered calls with professionalism, compassion, and true to our mission to protect life and all property.

The following is a list of accomplishments that have been achieved through the dedication and hard work of all the members of the Providence Fire Department:

- The Department received a 2020 Assistance to Firefighter (AFG) grant in the amount of \$473,285 for the purchase of thermal imaging cameras and Lifepaks for our Rescues.
- Took delivery of 9 Pierce fire and rescue apparatus. The acquisition was for 4 Pierce Saber pumpers, 3 Pierce Arrow XT aerial ladders, 1 Pierce Arrow XT aerial platform and 1 Ford F-550 Rescue. This is the city's biggest apparatus purchase in the last 40 years.
- Continued to revise the Department's Standard Operating Procedures, Training Bulletin's and Rules and Regulations
- Continued a partnership with Lifespan simulation lab for training all department companies with the focus on pediatric patients.
- Received a grant from RIEMA for a new HazMat Assessment Vehicle and HazMat Instrumentation.
- Continued to administer Covid-19 testing to all Public Safety Employees, City Employees, and their families. Over 7,000 PCR tests and 9,000 rapid tests were administered at the Providence Public Safety Complex.
- Provided two EMT-C firefighters in the Mobile Health Unit to provide in-home vaccines for those residents unable to get to a clinic.

# PROVIDENCE FIRE DEPARTMENT FIRE PREVENTION BUREAU

# 2021 ANNUAL REPORT

STEVEN M. PARÉ Commissioner of Public Safety Acting Chief of Department JORGE O. ELORZA Mayor

### STEVEN M. PARÉ

Commissioner of Public Safety Acting Chief of Department

# **ANDREW WENT** Fire Prevention Captain

JORGE O. ELORZA Mayor

### **Fire Prevention Bureau**

"Smoke Detectors Save Lives"

The principal responsibility of the Providence Fire Department's Fire Prevention Bureau is to promote fire prevention and awareness which is essential to the department's overall mission. Some of the central functions of the Bureau includes plan review, code enforcement and inspections, public education, and fire investigations. Inspectors, plan reviewers, and investigators in the Bureau attend certification training and are licensed as Assistant Deputy State Fire Marshals in order to enforce the code.

Rhode Island adopted an updated Fire Safety Code in July 2021 based on the 2018 editions of NFPA 1 and NFPA 101. Inspectors in the Bureau devoted significant time to learning the new changes.

### Plan Review and Construction Inspection

The Fire Prevention Bureau oversees plan reviews for new construction and renovation to ensure compliance with the Rhode Island Fire and Life Safety Codes, including fire rated construction, egress features, emergency lighting, and fire alarm and sprinkler systems. Fire Prevention Bureau personnel make on-site inspections of construction projects periodically to ensure that as-built conditions echo what was approved during the plan review process. Calendar year 2021 was a very active year for construction and renovation throughout the city. Some of the larger projects completed during the year included the new Brown University Wellness Center, two Rhode Island School of Design dormitories that underwent substantial renovation, a number of mid-size apartment buildings, and a large apartment building on South Water Street.

Residential plan reviews are conducted for installation of interconnected smoke and carbon monoxide detection systems which are required by Code in most residential occupancies, including new one-family homes and two-family homes.

Finally, inspectors from the Bureau worked with the State Fire Marshal's office on several new construction projects on the I-195 redevelopment land.

Plan intake fees collected in 2021 totaled \$847,004 which was a slight increase from 2020.

### **Code Enforcement Inspection and Public Outreach**

The COVID pandemic continued to present the Fire Prevention Bureau with challenges enforcing the Rhode Island Fire Safety Code while at the same time providing assistance to businesses trying to stay open through creative expansion of their premises.

Inspectors processed 1,238 permit applications for liquor and food licenses, outdoor dining, and various special events in 2021, an increase of more than 25% from the previous year. Nearly every neighborhood in the city saw street closures for outdoor dining, COVID testing and vaccination, nightclub expansion, shopping and other activities. The Fire Prevention Bureau provided guidance with maintaining access for fire apparatus, clearance around hydrants and fire department connections, maintaining safe egress, and safety from vehicles. Some of the larger outdoor dining and shopping were on Federal Hill, South Providence, throughout Downtown and in the Jewelry District, Fox Point, Manton, and the East Side.

The Rhode Island Fire Safety Code requires home sellers to obtain a certificate from the Fire Department documenting the inspection of smoke and carbon monoxide alarms. The active nationwide home sale trend was reflected in the market in Providence; smoke inspections brought in more than \$83,000, an increase of over 35% from 2020.

Inspectors also worked with businesses and the public to ensure fire safety with a myriad of other unique activities throughout the year. As required annually by the Rhode Island Fire Safety Code, the Bureau inspected all public and private schools (K-12) and all nightclubs. Planning and inspection was conducted for some large festivals that returned in 2021, including the Seafood Festival, Beer Festival, Puerto Rican Festival, Cape Verdean Festival, and scattered PVD Fest activities. Fireworks permits were issued for events at Brown University, Waterplace Park, and Fox Point. Two major motion pictures were filmed in the city in 2021, personnel were involved with the inspection and coordination of their activities, fire watches, and oversight of fire system impairments. Finally, with the return of winter weather and a rise in COVID cases as 2021 ended, the Bureau assisted helping a vacant nursing home come into fire safety compliance in order to operate as a COVID shelter for the homeless.

### Fire Investigation

Providence Fire and Arson Investigators conducted 359 origin and cause investigations in 2021. Of these investigations, 218 were building fires, 100 vehicle fires and 41 miscellaneous fire incidents that included electrical problems, boiler malfunctions, outside fires and dumpster fires.

Matching annual trend, the overwhelming majority of building fires were in residential-type structures. In 2021, nine fires were in vacant buildings and 16 were in high rises.

The Department's Arson Squad assists in the investigation of multi-alarm fires, fires of suspected incendiary origin, and fires involving injuries or death. In 2021, there were 10 fire-related injuries and 1 fire death in Providence.

The Arson Squad, including K9 Wizard, an accelerant detection canine, maintains a relationship with Providence Police, the State Fire Marshal's office, local offices of the FBI and AFT, along with fire investigators in the surrounding cities and towns.
