**BID PACKAGE SPECIFICATIONS**

**Introduction**

The City of Providence seeks a partner here fore known as the “Consultant” to enter into a Design-Build-Operate-Maintain (DBOM) contract to develop architectural/ engineering design services, conduct pre-construction consulting services, construct, operate, and maintain:

- A 2,000 to 4,000 square foot building in Kennedy Plaza that houses a food pavilion/food vendor space(s) and supporting amenities (location within the plaza is flexible and to be determined through an initial phase of this work);
- An approximately 8,300 square foot shaded outdoor seating/dining and event area attached/adjacent to the new building; and
- Associated landscaping improvements in the Plaza to make the area more sustainable, resilient, and inviting for visitors of all ages.

The successful bidder, if awarded a contract, will be expected to operate and maintain the food pavilion and adjacent outdoor shaded seating area/event space for a period of not less than four years after completion of the construction project.

The food pavilion and associated landscaping improvements to Kennedy Plaza are envisioned to function as a destination by attracting people to Downtown Providence and serve as an amenity that supports Kennedy Plaza programming and surrounding residential and commercial investments. The building should include year-round restaurant space, including necessary kitchen/back of house space and a fully air-conditioned and heated area connected to the outdoor dining, with the potential for adaptable indoor/outdoor spaces. The pavilion operator(s) have not yet been selected and may include multiple operators or one operator, potentially with more than one concept within the space. The Consultant will also be expected to have a qualified restaurant/food service operations consultant on their team to inform the programming, location, and design of the food pavilion.

These improvements should further the following goals:

- Activate Kennedy Plaza with positive uses during all times of year and days/evenings.
- Attract people of all ages to Kennedy Plaza.
- Make Kennedy Plaza a more comfortable space that is more sustainable and resilient to sun, heat island impacts, and wind.
- Complement existing assets and planned investments in surrounding buildings and spaces including the: playground at Burnside Park, skating rink, surrounding hotels and restaurants such as the 30,000 square foot food hall being constructed on the lower level of the Union Station building across Exchange Terrace and the new restaurant and hotel recently opened at One Financial Plaza across Fulton Street, and redevelopment of 111 Westminster into mixed-income housing.
- Break up the expansiveness of the Plaza into an interconnected series of more comfortable and welcoming spaces.
- Create flexible space that can be used for events such as farmers markets, concerts and public gatherings.

The inspiration for these improvements emerged from the City’s Imagine Downtown Providence project, which occurred between 2020 and 2021. Through that effort, the City engaged community members in a public process to reimagine Greater Kennedy Plaza, the Riverwalk, and Waterplace Park to make them more sustainable, resilient, welcoming, safe,
and to better connect these important public spaces. The resulting vision included the creation of “Big Shade”—a cafe building and large shaded outdoor seating area and event space where people could enjoy food and beverages and the City could host events to activate the area like farmers markets and concerts. The anticipated move of RIPTA’s central bus hub out of Kennedy Plaza will create a void that should be enlivened and filled with more amenities for the residents, workers, and visitors of the area. Investments in Kennedy Plaza will increase the health and safety of people Downtown by providing a clean and safe space for recreational and cultural activities.

The City is now prepared to engage a consultant to develop site, landscape, architectural, and construction plans and documents for the Big Shade (also referred to as the food pavilion in this RFP), associated large shaded outdoor seating/event area, and additional landscaping to activate the plaza and make it a welcoming, beautiful space. In the months since the conclusion of the Imagine Downtown Providence project, the City’s vision for the Big Shade area has evolved in collaboration with stakeholders. Originally envisioned to be located at the northeastern end of the Plaza, closest to Exchange Terrace, the City and stakeholders now seek to have the Consultant develop several alternative site plans for siting of the food pavilion and shaded area within the Plaza prior to advancing a preferred alternative through the rest of the design process. (The original vision also included relocation of the skating rink from its current location to the center of the Plaza. That will no longer be pursued by the City and the skating rink will remain in its current location, freeing up more of the Plaza for the new cafe building, shade area, and landscaping.) The Consultant (with input and final approval from the City) will be responsible for selecting the specific siting of the food pavilion, shaded seating area, and landscape amenities within the Plaza as well as the architectural design style and materials. The team shall not be beholden to the siting or conceptual design style presented as part of the Imagine Downtown Providence project. The City is seeking fresh ideas for the siting, look, and feel of these features through this process.

As RIPTA works toward relocating most bus berths from Kennedy Plaza, it is important that the food pavilion and associated improvements work with the current layout of buses in Kennedy Plaza (which includes the existing bus lanes and berths on both sides of the Plaza) as well as the long-term plan for the area.

In the future, the non-historic portion of the existing RIPTA building in Kennedy Plaza may be considered for demolition to allow the City to construct a more flexible and functional addition to the historic RIPTA building that better meets the needs of today. To advance this concept, the Consultant will develop conceptual alternatives for a future Phase 2 of this project that will involve demolition of the existing addition to the historic trolley building in Kennedy Plaza and construction of a new building or shaded seating/event area that complements the other work outlined above. Phase 2 will not be constructed as part of this scope of work. The City only seeks conceptual design alternatives and cost estimates for Phase 2 at this time.

If awarded the DBOM contract, the successful vendor will enter into a right-of-way use agreement with the City of Providence for ongoing maintenance and operations of the food pavilion and associated outdoor area.
