

CITY OF PROVIDENCE, RHODE ISLAND

Department: Providence Water

RFP Title: Accelerated Lead Service Line Replacement Program Contract 1.1

Opening Date: 08/28/2023

Addendum #: 2

Issue Date: 08/23/2023

The purpose of this addendum is:

Contract documents modified, amended and supplemented.

ADDENDUM NO. 2

TO: ALL CONTRACT DOCUMENT HOLDERS OF RECORD
ALL PROSPECTIVE BIDDERS

FROM: PROVIDENCE WATER
125 DUPONT DRIVE
PROVIDENCE, RHODE ISLAND 02907
PHONE: (401) 521-6300

DATE ISSUED: WEDNESDAY, AUGUST 23, 2023

RE: ACCELERATED LEAD SERVICE LINE REPLACEMENT PROGRAM –
CONTRACT 1.1
CONTRACT NO. 20234

BID OPENING DATE: MONDAY, AUGUST 28, 2023 AT 2:15 PM

BID OPENING LOCATION: BOARD OF CONTRACT AND SUPPLY MEETING
CITY COUNCIL CHAMBERS
PROVIDENCE CITY HALL
25 DORRANCE STREET
PROVIDENCE, RHODE ISLAND 02903

LAST WRITTEN QUESTIONS DUE: FRIDAY, AUGUST 18, 2023

This Addendum No. 2, including all referenced attachments, modifies, amends, and supplements designated parts of the Contract Documents to the above-referenced project and shall be part of the Contract Documents as provided in the “Instructions to Bidders” for the above-referenced project.

Acknowledge receipt of this Addendum by inserting its number and date on page 00 41 00 – 1 of the Bid Form. Failure to do so may subject the Bidder to disqualification.

The Contract Documents are hereby modified, amended, and supplemented as follows:

ATTACHMENTS

The following attachments are included with this Addendum:

1. Appendix A – LSL Addresses

SPECIFICATIONS

1. SPECIFICATION 01025 – MEASUREMENT AND PAYMENT:

- a. **ADD** the following after the last sentence of Paragraph 3.05.C.3 (added via Addendum 1): “Assume RPZs required are 1-inch in size. Contractor will be paid the difference in material costs for any required larger RPZs under Item S-4 Miscellaneous Work at the Direction of the Owner. Contractor shall provide the invoices to indicate the price difference. No overhead or profit will be paid on the difference in price.”
- b. **DELETE** Paragraph 3.08 PAVEMENT RESTORATION WITH CONCRETE SUBBASE (ITEM S-2A) in its entirety.

2. SPECIFICATION 02663 – WATER SERVICE CONNECTIONS: DELETE Paragraph 3.02 in its entirety and REPLACE with the following Paragraph 3.02:

“3.02 ELECTRICAL GROUNDING

- A. Prior to performing a replacement involving the private-side (curb to meter), the Contractor shall have a quality inspection performed by a competent person properly trained to check if the existing water pipe is being used for grounding and test for current with a multi-meter. If used for grounding, the Contractor shall perform the following:
 1. For a private-side only replacement, install a temporary bonding jumper in parallel with the existing service line, firmly attaching approved grounding clamps to either side of the service line to be repaired, replaced, or reconnected. Contractor shall ensure the connectors are contacting bare (clean) service line material for a metal-to-metal contact. Contractor shall remove temporary grounding after completion of all work and perform a re-inspection by a competent person properly trained to check if the grounding system is properly functioning.
 2. For a full replacement (water main to meter), install a temporary bonding jumper in parallel with existing service line from the existing water meter to

the existing water main firmly attaching approved grounding clamps to the service line and magnetic connector to the water main ensuring contact with bare (clean) service line and water main material for metal-to-metal contact. For bonding connection to water main, Contractor shall excavate and expose water main and then clean pipe so that magnetic device can make metal-to-metal contact. Contractor shall remove temporary grounding after completion of all work and perform a re-inspection by a competent person properly trained to check if the grounding system is properly functioning.

- B. All work shall be in accordance with the National Electrical Code and City of Providence or Cranston requirements for grounding systems.
 - C. Contractor shall perform the work utilizing appropriate Personal Protective Equipment (PPE) and maintain the existing level of electrical grounding through the water service line replacement process. Do not cut the existing service line until the temporary bonding jumpers are installed.
 - D. Once the new copper water pipe is installed, Contractor to connect the pipe to the grounding system with a jumper across the meter for continuity. Existing conditions prior to the replacement shall be restored.
 - E. If improper grounding or electrical work is detected, the Contractor shall notify the homeowner who will need to contact an electrician to correct the electrical work in the building before the replacement can commence. No work shall be performed until the improper grounding or electrical work is corrected. If the electrical issue is identified on the day scheduled for replacement at that address, the Contractor will be paid under the Bid Item for “No Access Provided” and will return to the house for the replacement once the homeowner notifies the Contractor that the grounding is corrected.”
3. **DELETE** Appendix A in its entirety and **REPLACE** with the attached Appendix A in Attachment 1 of this Addendum.

WRITTEN QUESTIONS AND COMMENTS SUBMITTED

1. **QUESTION:** Also, related to section 02663 3.02 – Electrical Grounding. It is understandable that we check for electrical grounding prior to cutting the pipe, but why is the responsibility of making grounding modifications being put on the contractor and/or plumber? Neither should be performing this work. It still involves copper wiring and should be done by an electrician under a permit. Is this something you can add a separate item for, and specify that an electrician is required? I do not think we should

need to carry this cost in all of our private side replacements (just in case we come across it). If you make it a separate bid item with a nominal quantity, it will cover the situations where this arises and we can be compensated for hiring an electrical subcontractor.

RESPONSE: See revised grounding requirements in Section 02663 Paragraph 3.02. It shall be assumed by the Contractor that the water pipe is part of the electrical grounding system at each location.

2. **QUESTION:** For the RPZ, is that item just for 1” or does it include all sizes? Based on discussions with a plumber, the cost varies significantly between a 1”, 1.5”, and 2” backflow preventer.

RESPONSE: Assume all RPZs required in the project area are 1-inch in size. If a larger RPZ is required, the Contractor will be paid the difference in cost under Item S-4 Miscellaneous Work at the Direction of the Owner. Contractor shall provide the invoices to indicate the price difference. No overhead or profit will be paid on the difference in price.

3. **QUESTION:** Can the list of addresses be sorted by street? So we can get a better feel of how many houses are on each street?

RESPONSE: See Attachment 1 for Appendix A sorted by street.

4. **QUESTION:** Can you add an item for concrete road-base restoration? If an item is not added, where would this work be covered, under misc. concrete?

5. **RESPONSE:** If concrete road-base restoration is required, the concrete will be paid for under Bid Item S-2 Miscellaneous Concrete.
