Power, steam and one water wheel.

Heated by steam pipes mostly overhead.

Lighted by arc electric lights. Some gas used in smaller buildings.

Raw stock, cotton and wool.

Finished products, ladies dress goods.

About 2200 hands employed.

500 Men on premises by day, 10 by night.

6 Watchmen nights and Sundays. Howard electric watch clock.

Well perforated pipe sprinklers throughout No.1 Mill and Wing, Granell perforated pipe sprinklers throughout No.2 Mill and Wing, Dye House Extension, Mills 2 and 3, Intermediate Bldg. and Wool Washing Bldg. Parmelee automatic sprinklers throughout Waste and Dry Rooms and first story Top Room Bldg. Primary supply for automatics, except in Picker House, city main, tank in No.2 connected. Pipe sprinklers and automatics in Picker House, tank in No.1, city main connected. Pumps connected to all sprinklers.

Streams said to be available from Riverside & Oswego Mills.

Steam fire engine one half mile distant. 8 Steamers in town, Stevens Hook.

Public fire alarm telegraph, private box on Dye House Bldg.

Public water supply from reservoirs.

Materials of which walls of building are constructed are shown by colors:
Brick = Red. Stone = Green.
Wood = Yellow. Iron = Blue.

Property not belonging to risk has only margin colored.

Initial Letters, in lower right-hand corner of plan of building, indicate material of which building is constructed as follows: B.I. denotes Brick Walls; etc.

Roof Covering is marked in similar place on the plan thus: [ ] denotes Slate; [ ] denotes Tin; [ ] denotes Gravel or Composition.

In Views, Roofs are colored grey if covered with material not easily ignited, as shingles, tin, slate, and gravelled tar; red if covered with materials easily ignited, as shingles, pine boards, or tarred felt on boards. "Fire Proof" Cornice shown by dotted line across roof in margin on views.
