## *Request for Proposals to Conduct Avian Surveys for Providence Water*

Providence Water is seeking to retain the services of a qualified firm/individual to accomplish avian surveys at five (5) sites. The information from these surveys will be used to help guide future management of these areas. Sites include fields, former agricultural land, shrub areas, and early successional habitat. A brief description of each area to be surveyed is included.

The bidding firm/individual shall have experience and expertise in identifying the birds that may be encountered as part of these surveys and be familiar with bird census techniques. **A summary of qualifications and experience with similar projects shall be included with the proposal.** To view any of the sites with Providence Water personnel contact Rob MacMillan at 401-521-6300 ext. 7318 or by email at robertm@provwater.com.

### **Site 1: Joslin Farm**

#### **Description**

This area is accessed through a metal gate off Tunk Hill Road in Scituate. It consists of approximately 65 acres of abandoned agricultural land that were converted to warm season grasses in 2009. There were an additional  $\pm 17$  acres of predominately oak forest adjacent to the fields that were clear-cut at the same time to create early successional habitat. The grassland area has been burned twice, once in 2013 and again in 2017. Breeding bird surveys have been completed at this site in 2006, 2011, 2014 and 2018. A total of 9 points were established during each survey with the focus being on the grasslands. No points were established in areas cut for early successional habitat development. Standard protocols for grassland breeding bird surveys as recommended by the NRCS were utilized.

### **Site 2: Fenner Field**

#### **Description**

This area is located near the intersection of Trimtown and Central Pike in Scituate and accessed through a cedar boom gate off Central Pike. It consists of approximately 26 acres, made up of  $\pm 6$  acres of former agricultural field;  $\pm 5$ -acre alder and birch thicket; and  $\pm 15$  acres formerly of oak forest that was cut in 2014 with 5-8 trees/acre left as residuals. The area of alder and birch has been mowed/cut twice since 1990 and allowed to re-sprout. It was most recently cut in 2013. Three points were established during the 2018 survey.

**Site 3: Four Winds Farm****Description**

This property was purchased by Providence Water in 2016 and is located at 730 Plainfield Pike in Scituate. Prior to Providence Water ownership the ± 17 acres of fields located on the property were maintained on a regular basis by mowing, but not utilized as hay fields. There are several structures still on the site. Since Providence Water ownership, mowing of the back portion of the fields covering ±10 acres has been halted while the front portion has continued to be maintained, but at a reduced rate of 1-2 times per year. Three points were established during the 2018 survey.

**Site 4: Swallow Fields****Description**

This field is located on the east side of West Greenville Road (Rt 116) just south of Pole Bridge Road in Scituate. It is ±16 acres in size and was managed for hay until 2013. In 2015 an area of approximately 1.5 acres was disked and sown with wildflower and grass seed for pollinator cover. Since 2013 it has been mowed annually in the fall with blade height set at 8-10". Three points were established during the 2018 survey.

**Site 5: Baldwin Farm****Description**

This site is accessed through a metal gate at the cul-de-sac at the end of a private road, Michelle Way, in Johnston. In 2019 the majority of the land owned by PW that was abandoned agricultural land was converted to solar panels. The area of solar panels is fenced, survey points will be placed outside of the fenced areas. Of the total 32 acres of former agricultural land approximately 19 acres are fenced and 13 are open or gravel access roads. Three points were established during the 2018 survey.

**Scope of Work**

Surveys shall consist of using standard protocols and establishing a sufficient number of points at each of the five sites. Surveys to be completed should be tailored to the types of birds that may be using the habitat found at the site. The proposal should include the method(s) that will be utilized and approximate timing (season/month/day/night etc.) and number points that will be established at each site. A vegetation survey is not required but a brief description of each point or site should be included in the report.

**Deliverables**

Upon completing the surveys, a report detailing the methods used and the findings shall be compiled and submitted to Providence Water. The report shall include a list of birds identified at each point and an assessment of relative abundance (abundant, common, uncommon, etc.) of each bird species for each site. Special note of any Federal or State listed birds or birds of State Concern recorded should be included. Two printed copies of the report will be submitted along with an electronic version of the same as a PDF.

**Payment**

Unless otherwise detailed in the submitted proposal, payment will be made at the completion of the project upon submission of a written invoice with the final report.

**Insurance**

The successful bidding firm or individual shall maintain general liability insurance in the amount of at least one million dollars (\$1,000,000.00) for the duration of this project. The successful firm/individual shall submit evidence of insurance to the Providence Water Supply Board (PWSB). Carrier shall be a company with no less than a B rating and shall provide thirty (30) days advance written notice of cancellation or termination to the PWSB. An example of this document and how it must be filled out is attached.

None of the work performed as part of this project will be subcontracted without prior knowledge and approval of Providence Water. Sub-contractors listed in the submitted proposal are considered acknowledged and approved.

Point of contact for this project is Providence Water Forester, Rob MacMillan, questions may be addressed to him at 401-521-6300 ext. 7318, or by email at [robertm@provwater.com](mailto:robertm@provwater.com).
