MinuteTraq ID: 43676

ADDENDUM NO. 1
Providence Illumination Plan

PROVIDENCE, RHODE ISLAND

The information, clarifications and revisions contained in this addendum are to be incorporated as ADDENDUM NO. 1 – PROVIDENCE ILLUMINATION PLAN. All referenced changes are to become part of the Contract Documents:

- This addendum answers questions submitted to the Planning Department.

Q: Some of the new lighting might require upgrades to hardscape/landscape. Are you planning for any of that to occur? And should the team include a landscape architect?

A: We welcome a creative approach within the scope of the RFP.

Q: Would you be able to provide a budget range for both design and construction?

A: A budget range is not available. This RFP is for design only. The City has allocated sufficient CIP funding for design.

Q: Have you established a timeline for construction?

A: No timeline for construction has been established.

Q: During the Unified Vision for Downtown Public Spaces study, the consultant had planned for audio capable pole systems, and potentially also serve for sound art installation, or even events like Waterfire that uses ambient music during their events. Is that what you have in mind for audio?

A: Yes.

Q: Are there plans for street signage to be incorporated in the luminaires? And how would this be procured?

A: There are no plans for incorporation of street signage currently.

Q: Facade projection mapping is mentioned. Should the team plan to include a scope for visual content production, or equipment infrastructure only?

A: Scope should include equipment and infrastructure only.
