# PROVIDENCE FIRE DEPARTMENT

In Omnia Paratus

BRETT P. SMILEY
MAYOR

DEREK M. SILVA
CHIEF OF DEPARTMENT

### DEPARTMENT OVERVIEW

The Providence Fire Department is the second oldest continuously operating professional fire department in the United States with a career fire service that began on March 1, 1854. The Department is a full-service fire and emergency medical service agency that provides basic and advanced life support, fire prevention, fire suppression, technical rescue, hazardous materials response, and marine operations.

The Department's current compliment consists of 381 sworn and twenty-three (23) civilian personnel to staff and support twelve (12) Engine Companies, seven (7) Ladder Companies, seven (7) Rescue Companies, one (1) Special Hazards Company, four (4) Battalion Chiefs, and one (1) Deputy Assistant Chief—resulting in a staffing strength of eighty-eight (88) sworn fire personnel on-duty at all times from twelve (12) fire stations within the City of Providence.

In addition to the operations and emergency medical services divisions, the Department staffs and operates administrative bureaus and divisions such as Headquarters, Fire Prevention, Training, Automotive Maintenance, and Operational Control.

This dedicated team of fire service professionals is led by Chief of Department Derek M. Silva, Chief of Operations Stephen T. Houle, Chief of Administration Joseph L. Molis, Deputy Assistant Chief/EMS Zachariah R. Kenyon, and Fire Marshal Derek Simoneau.

### CHIEF OF DEPARTMENT'S MESSAGE

On behalf of the Providence Fire Department, it is a pleasure to present our 2023 Annual Report summarizing our performance through calls for service, training and education, and fire prevention activities such as inspections, education, and investigations.

While responding and mitigating 47,394 calls for service, the Department also led the way in the deployment of a newly established Emergency Medical Services Bicycle Unit to service the Downtown area in and around Kennedy Plaza, the hiring of thirty-two new

firefighters through a lateral firefighter training program, and the implementation of a tiered response policy for determining appropriate deployment of resources to calls for service.

Through continued adoption of new policies and programs the Department will continue to transform while maintaining our reputation as a professional and high performing fire and emergency services provider.

I want to extend my sincere thanks and appreciation for the work our firefighters carry out each and every day in service to our great city.

### **DEPARTMENT ACCOMPLISHMENTS**

- New leadership for the department with the promotions of Chief of Department, Chief of Operations, Chief of Administration and Fire Marshal.
- Promoted new officers and chiefs to fill vacancies created by attrition; two (2) Deputy Assistant Chiefs, five (5) Battalion Chiefs, nine (9) Captains, and thirteen (13) Lieutenants.
- Implemented a new written directive management system providing all members of the department with immediate access to all policies, procedures, and documents pertaining to the organization.
- All engines and ladders outfitted with tablet devices providing all officers with access to the Computer Aided Dispatch system and other department software when responding and on the scene of an incident.
- Recruitment, training, and appointment of thirty-two (32)
  new firefighters through a lateral program reducing the
  time and costs associated with training new firefighters.
- Reviewed and updated department's call types and response plans to ensure appropriate resources are dispatched to calls for service.
- Implemented a tiered emergency vehicle response policy whereby the department adopted industry standards and best practices to determine when emergency or nonemergency response is appropriate.

### **DEPARTMENT ACCOMPLISHMENTS**

- Provided department wide training with the Department of Equity, Inclusion, and Belonging and the office of Equal Employment Opportunity on anti-harassment and nondiscrimination.
- Implemented new policies and training with the Bureau of Operational Control to improve emergency dispatch call taking.
- Acquired and deployed three (3) engines to replace Engine 2 and Engine 8 along with an additional reserve unit.
- Initiated recruitment for the 54th training academy to fill firefighter vacancies that will reduce the reliance on overtime to maintain minimum staffing levels while lessening the demand on incumbent firefighters.
- Created and implemented new hiring protocols for assessing potential academy candidates.
- Implemented a new pilot program whereby firefighter/EMTs are deployed on bicycles to service the downtown area.
- Deployed Mobile Health 1, a mental health and non-emergent medical response SUV staffed by an advanced life support EMT and a mental health clinician to respond to calls for service.
- Participated in several large scale trainings and exercises to ensure the department is ready to respond to low frequency, high risk incidents.

### **BUREAUS & DIVISIONS**

## Headquarters (325 Washington St.)

### CALLS FOR SERVICE

The Providence Fire Department responded to a myriad of calls for service that utilized the skills and training of our firefighters, from advanced life support to hazardous materials response and structural firefighting.

47,394

### **OPERATIONS**

The operations division of the Department is led by Assistant Chief Stephen Houle and includes all personnel and units responsible for the delivery of fire and emergency medical services through various response assignments.

In addition to response to emergencies, the operations division completed numerous trainings, joint drills, and pre-incident plans. Improved coordination with our partners in public safety along with increased training and preparation has ensured that our department is ready.

Working closely with Providence and Rhode Island Emergency Management, along with Providence police led to the development and completion of specialized training in active shooter response, rail car derailment operations, hazardous materials response, flammable liquid operations and mass evacuation planning.

The operations division is the largest division within the department and serves as the busiest fire and rescue organization in Rhode and the second busiest in New England.

While responding and mitigating over 47,000 calls for service including 106 structure fires, over 2,000 motor vehicle crashes, and more than 30,000 emergency medical services calls our firefighters are always ready.

### STATIONS & STAFFING

The fire department staffs and operates from twelve (12) fire stations that house twenty (20) fire companies, seven (7) rescue companies, one (1) special hazards, four (4) battalions, and a division chief. Additionally the department operates several support and special operations units such as the Hazardous Materials team and Marine units.

Each fire and rescue company is commanded by a Captain and three (3) Lieutenants that are divided amongst the four (4) shift assignments. In addition to the Captain or Lieutenant, fire companies such as engines and ladders are staffed with either two (2) or three (3) firefighters while rescue companies are staffed with an officer and a rescue technician.

These companies are assigned to one of three (3) geographic districts within Providence; 1st, 2nd, and 3rd, which are commanded by a Battalion Chief, each responsible for approximately thirty (30) on-duty firefighters and officers.

The total shift staffing of eighty-seven (87) chiefs, officers, and firefighters is commanded by the on-duty Deputy Assistant Chief assigned as Division 1.

### Division 1 (shift commander)

## STRUCTURE FIRES (STILL BOX)

Still Box is a reported structure fire received by phone to our dispatch center (Bureau of Operational Control). A still box response includes three (3) engines, two (2) ladders, one (1) Special Hazards, one (1) rescue, one (1) battalion chief, and the safety operations battalion along with an additional engine and ladder as the firefighter assistance and search team.

The department responded to 417 reported structure fires resulting in eighty-five (85) confirmed fires.

## STRUCTURE FIRES (MULTIPLE ALARMS)

Multiple alarm fires are confirmed structure fires where the situation required additional resources beyond the first alarm/still box assignment. Each additional alarm assignment adds two (2) engines, one (1) ladder and one (1) battalion chief.

## Total compliment of firefighters, officers, and chiefs per alarm:

1st Alarm: 29 to 34

2nd Alarm: 1st alarm and an additional 11 to 14 3rd Alarm: 2nd alarm and an additional 11 to 14

### **Multiple Alarm Fires:**

February 10th: 265 Ohio Avenue (2nd Alarm) March 9th: 144 Delaine Street (2nd Alarm) April 5th: 170 Benedict Street (2nd Alarm) May 13th: 101 Stanwood Street (3rd Alarm)

July 2nd: 19 Violet Street (2nd Alarm)
July 2nd: 407 Orms Street (3rd Alarm)

June 9th: 142 Pettys Avenue (2nd Alarm)

August 29th: 938 Douglas Avenue (3rd Alarm) September 6th: 140 Salter Street (2nd Alarm)

September 16th: 73 Glenham Street (2nd Alarm)

October 14th: Goddard Street (3rd Alarm)
November 14th: Indiana Avenue (3rd Alarm)

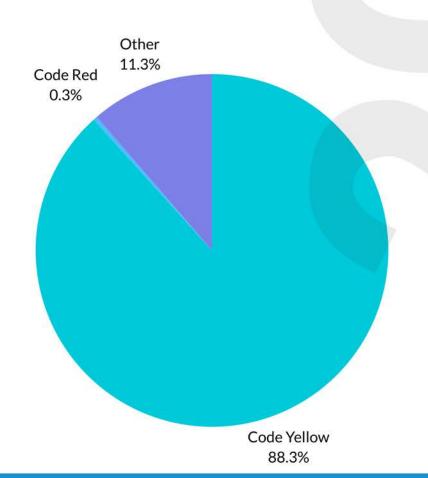

December 21st: Westminister Street (2nd Alarm)

### MASTER BOX ALARMS

Master box is a municipally connected fire alarm system that is directly connected to the fire department for automatic response by firefighters upon activation. These systems are typically found in commercial, industrial, and large residential properties. Master box alarm response includes three (3) engines, two (2) ladders, and a battalion chief. In 2023, the response plan was amended whereby one (1) engine, one (1) ladder and the battalion chief respond with emergency lights and siren activated.

## Total: 2,831

- confirmed structure fire (code red): 8
- confirmed activation, no fire (code yellow): 2,499
- other: 324

### MOTOR VEHICLE CRASHES

The department is dispatched whenever a motor vehicle crash involves injuries or suspected injuries. Response to motor vehicle crashes is one (1) engine and one (1) rescue excluding highway crashes whereby one (1) ladder also responds. Incidents where patients need to be extricated from the vehicle(s) includes the response of the Special Hazards which occured thirteen (13) times.

Total: 2,338

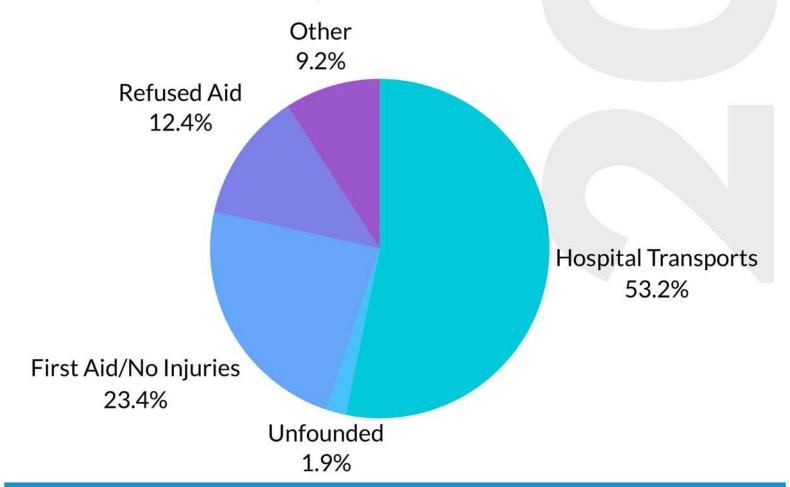

Hospital Transports: 1,244

First aid only/No Injuries: 547

Refused Medical Aid: 289

• Unfounded: 44

Other assistance provided: 214

The administrative bureau is responsible for ensuring the resources of the department are being utilized efficiently through effective management and coordination within the department along with various other city departments.

Led by Assistant Chief Joseph Molis, administration is the liaison and

leader for many of the core functions the department relies on such as equipment procurement, information technology, Human Resources, health and safety initiatives, and coordination with the departments of public safety and public property.

Administration began several new initiatives this year to improve the transfer of information and data

collection through significant improvements to how the department tracks, shares, and records information. While updating our technology infrastructure, the bureau also oversaw the administration of the recruitment, training, and hiring of thirty-two (32) new firefighters to bolster the resources of the department by decreasing the workload of firefighters and ensuring a sustainable financial path for the service.

This year saw the implementation of the department's first-ever computer aided dispatch integration into all emergency response vehicles along with vital information now at the fingertips of every company officer at an incident. Additionally, the division adopted a new electronic directive management system providing all personnel with access to the department's policies and procedures at any time, any where.

Our administrative bureau continues to improve the quality and function of the Providence Fire Department through advancements in technology and adoption of progressive policies.

### EMERGENCY MEDICAL SERVICES

The Emergency Medical Services Division provides basic and advanced life support services, and hospital transportation as the busiest prehospital care provider in Rhode Island and second busiest in New England.

This division is led by Deputy Assistant Chief for EMS Zachariah Kenyon and is

comprised of seven (7) advanced life support rescues that responded to over 30,000 basic and advanced life support incidents in 2023. The EMS division is also responsible for the certification and training of all Providence firefighters as emergency medical technicians along with all engines and ladders as non-transporting advanced life support units.

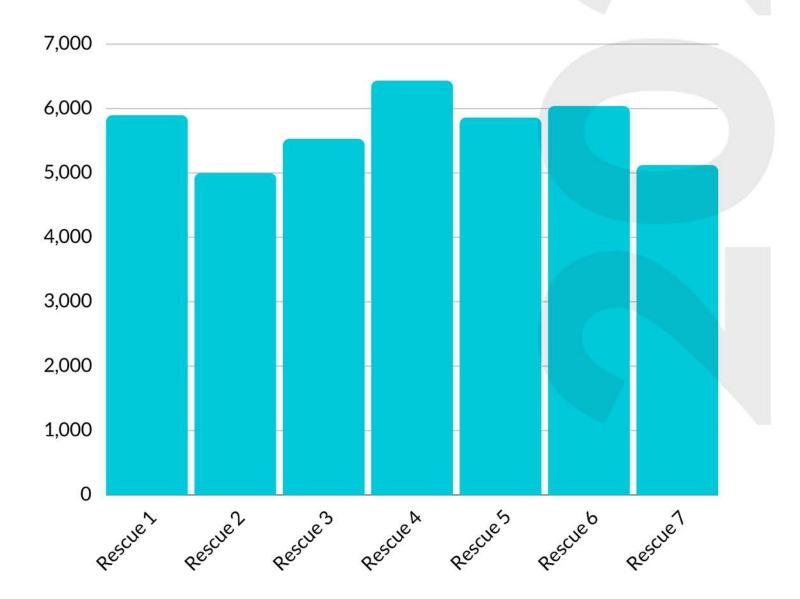

The division has adopted new programs for community based CPR training, EMS bicycle response, and initiatives such as mobile integrated health and mental health response that provides medical and clinical care in a dedicated response vehicle for those in crisis.

While responding to 153 cardiac arrests, 207 confirmed strokes, and over 1,100 overdose emergencies the division continued to lead the way with new programs and practices to better serve Providence.

### FIRE PREVENTION

The Fire Prevention Bureau serves as a vital partner in ensuring a safe city for all our residents and visitors. Fire Prevention encompasses inspections, plan review, public education, and investigations through twenty-two (22) sworn and civilian staff.

The Fire Prevention Bureau is led by Fire Marshal Derek

Simoneau who was proudly promoted in 2023 after several years without the position. Under his leadership the bureau has seen several innovations and improvements to its inspection and plan intake process that has provided a better customer service environment and additional revenue.

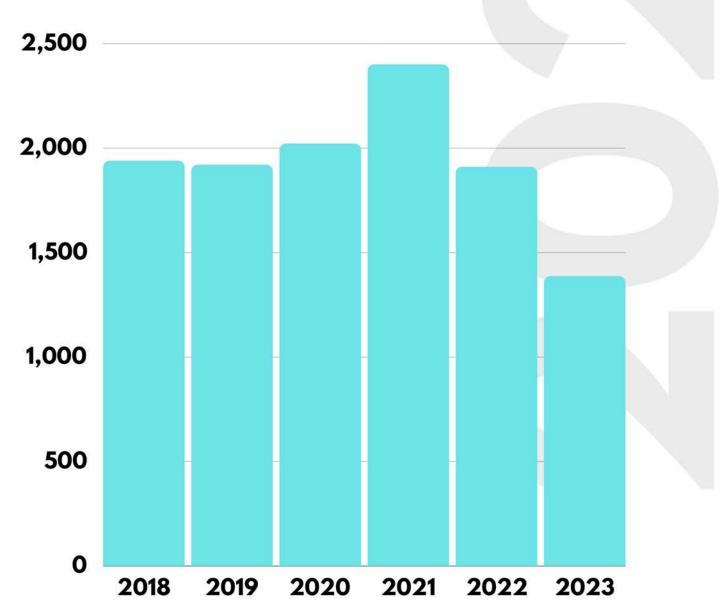

Fire Prevention successfully implemented a new system for tracking fire code complaints that resulted in 258 inspections, a 161% increase over the previous year. Further improving service through technology, fire prevention implemented an online payment and scheduling system for residential inspections whereby 58% have opted for online payment.

While embracing new programs the bureau completed over 2,400 life safety inspections, 1,200 plan reviews, and participated in over 120 community events to further emphasize the importance of safety in our community.

### FIRE PREVENTION - INSPECTIONS

Rhode Island law requires all one, two, and three family dwellings to have a smoke detector inspection certification to transfer ownership. These inspections are completed by fire prevention which resulted in \$46,830 in revenue for 2023.

## Dwellings inspected by year:

# FIRE PREVENTION - INSPECTIONS

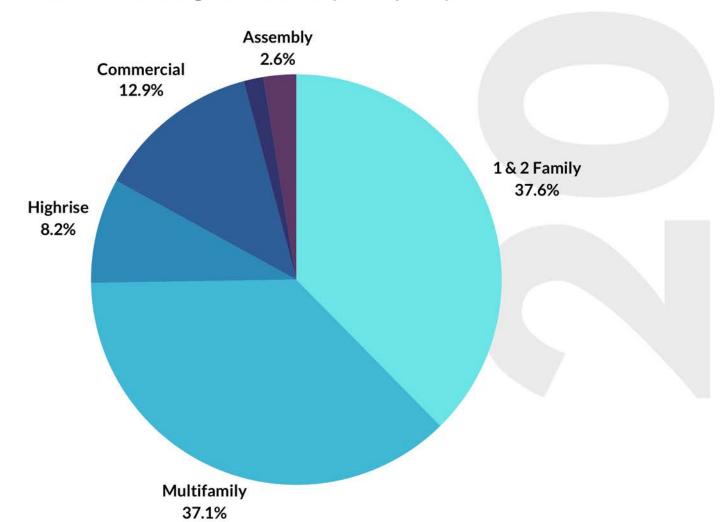

Permit Type	Fee Collected
Liquor License	\$53,300.00
Entertainment/Raffle/Class F Liquor Licenses (with entertainment)	\$6,700.00
Building Permit	\$1,168,719.00
Commercial Cooking Permit	\$5,748.00
Fire Alarm Permit	\$28,942.96
Food/Holiday License	\$50,500.00
Holiday Only License	\$2,400.00
Install Residential Smoke Alarm and CO Alarms	\$51,825.00

Smoke CO Inspections (Checks)	\$24,990.00
Smoke CO Inspections (Online)	\$21,840.00
Tent Permits	\$4,400.00
Building Inspections	\$2,545.00
License Inspections	\$1,100.00
Total	\$1,500,831.96

### FIRE PREVENTION - INVESTIGATIONS

Fire Prevention's arson and fire investigation division is comprised of two (2) arson investigators, including a K9, and four (4) fire investigators.

Together, this division investigated 286 incidents which included, eighty-seven (87) motor vehicle fires, twenty-nine (29) outdoor fires, fifty-eight (58) indoor fires that did not involve the structure, and 106 structure fires--these incidents resulted in thirty-three (33) civilian injuries and two (2) deaths.

### Incidents involving structures by occupancy:

### **DIVISION OF TRAINING**

The Division of Training is responsible for all training and professional development within the department. This includes training of new firefighters, promotional testing and training, continuing education for emergency medical services along with fire and rescue operational training.

The division is led by Captain Felix Ramos, Jr. with the support of three (3) training instructors. While ensuring the delivery of pertinent training for all members of the department, this division also underwent through three transitions of leadership from Captain Robert Crellin to Captain Michael Sullivan and now Captain Ramos.

Most notably the division assisted in the training of thirty-two new firefighters and the administration of three promotional examinations for the ranks of Fire Lieutenant, Fire Captain, and Battalion Chief.

Additionally, the division developed and produced numerous training and professional development programs.

### **DIVISION OF TRAINING**

### January

Administration of Battalion Chief promotional exam

Coordination of annual hose testing

Coordinated department training at 175 Terminal Road (UNIVAR)

### February

Battalion Chief promotional exam administered and published Lateral firefighter training academy preparation Coordinated department training at Miriam Hospital Coordinated department training at AT&T, Royal Little Drive

#### March

Administration of Fire Captain promotional exam

Addition of Prodigy training program for fire and rescue continuing education

### April

Coordinated department training on Rapid Intervention and vehicle repeater systems
Developed training for forcible entry utilizing newly donated door prop
Conducted annual hose testing
Coordinated department training Biological Detection System at main Post Office
Coordinated department training at Paragon Mill (144 Delaine Street)

### May

Continued lateral firefighter academy preparation

Fire Captain promotional exam administered and published

#### June

Lateral firefighter academy underway

### July

Constructed roof training props
Coordinated department training at Providence College
Lateral firefighter academy graduation
Firefighter CTE cohort 2program began

### DIVISION OF TRAINING

### August

Administered annual SCBA facemask testing per OSHA guidelines Conducted confined space training

### September

Conducted department training at 121 Terminal Road National Grid LNG Operations Administration of Fire Lieutenant promotional exam Department audit for 1041 - fire instructor and 1021 - fire officer training Conducted department training for all members to be recertified in CPR

#### October

Conducted department training at Radius Recycling, Allens Avenue
Coordinated department wide training with DEIB and EEO
Conducted department training with RI Fire Academy for 1041- fire instructor

#### November

Fire Lieutenant exam administered and published
Conducted department training for all members in hazardous materials operations
Conducted department training for ice rescue operations
Coordinated rail car safety class for forty (40) members of the department
Conducted department training with RI Fire Academy for 1041- fire instructor

#### December

Completed department training on anti-harassment, non-discrimination with EEO and DEIB

Conducted department training on firefighter deployment of attack hose Finalized department training with RI Fire Academy for 1041-fire instructor Coordinated with RI Fire academy to produce training for 1021 - fire officer and 1521 - incident safety officer to be offered in 2024

### BUREAU OF OPERATIONAL CONTROL

The Bureau of Operational Control is the central dispatch center for all fire department emergency responses. This division is also known as Fire Alarm and is located at 1 Communications Place along with Public Safety Telecommunications. The B.O.C. is led by Dispatcher Captain Michael Cairone along with four (4) Dispatchers-In-Charge with one being assigned to each of the four fire department shifts.

In addition to the five sworn members of the department, eleven (11) civilian fire dispatchers from the Department of Communications are assigned to ensure effective fire and rescue call taking and dispatching. This staffing complement results in a minimum of three (3) personnel on-duty at all times.

Engine and ladder requests by hour of day:

### **AUTOMOTIVE MAINTENANCE DIVISION**

The Automotive Maintenance Division is responsible for the repair and maintenance of all public safety vehicles and is led by Superintendent of Automotive Maintenance George Lazzareschi, Jr., also known as the Shop Supervisor. The division is staffed with an assistant shop supervisor, ten (10) senior mechanics, a fire equipment person, and a clerk to ensure all public safety vehicles are well maintained and ready for service.
