BID PACKAGE SPECIFICATIONS

SECTION 1: Background

On March 11, 2021, President Biden signed the American Rescue Plan Act (ARPA) of 2021 into law to bring direct and immediate relief to families and workers. The act provides \$350 billion in funding to states, counties, municipalities, and other governmental units across the country. These Coronavirus State and Local Fiscal Recovery Funds (SLFRF) are to be used by state and local governments to address the devastating public health and economic impacts of the COVID-19 pandemic. Providence received approximately \$166 million in SLRF funds, which were distributed via municipal ordinance into various categories in May 2021, June 2022 and November 2023.

In June 2022, the City of Providence approved an ordinance which included \$10,000,000 for the COVID-19 Equities Program. The purpose of this funding is to address the lingering disparities resulting from injuries suffered by African Heritage and Indigenous communities as outlined in the A Matter of Truth report. The Providence Municipal Reparations Commission was formed to provide clear recommendations to the City on appropriate policies, programs, and projects to begin addressing lingering disparities. The commission authored a detailed 11-point investment strategy that articulates specific recommendations, grounded in community feedback and research, for how the City should spend the \$10,000,000 COVID-19 Equities Fund. Further, the commission authored a set of ARPA-compliant eligibility criteria that specifies the intended recipients of the funding and/or programming resulting in the administration of the \$10,000,000. Details of the eligibility criteria can be found on [pages 12-14 of the 11-point investment strategy report](#).

This program will advance the creation of a resident scholarship program addressing the inequitable allocation of scholarships that makes higher education less attainable for students facing poverty. The path from high school through postsecondary education has long been a barrier for many Providence minority and low-income youth. In Rhode Island, there are large gaps in college completion between low income and higher income students, with 42% of low-income students completing college within six years, compared to 75% of higher income students. In Providence, the percentage of 2020 college enrollees who persisted (enrolled for a third semester) was 61%.

Over 1.7 million individual scholarships are awarded annually, however, only 7% of college students will receive a scholarship. The U.S. Department of Education awards an estimated \$46 billion in scholarship money annually. A scholarship **allows students to focus on academics, increasing their chances of staying in school and graduating on time**. Students who receive scholarships have fewer financial concerns, more time to study, and a greater chance of success.

**BOARD OF CONTRACT AND SUPPLY
CITY OF PROVIDENCE, RHODE ISLAND**

SECTION 2: Goals

- To provide financial assistance to college-bound high school seniors and other eligible residents who want to pursue post-secondary education.
- To lessen the financial burden of pursuing a higher education.
- To directly reduce how much a student needs to pay for their higher education out of pocket.
- To capitalize the funds through matching gifts from partnering educational and charitable institutions.

SECTION 3: Scope of Services

- The City of Providence is soliciting proposals for a qualified entity to implement a youth Scholarship Program. This provider will be tasked with administering a comprehensive scholarship program to provide financial assistance to college-bound high school seniors and other eligible residents who want to pursue post-secondary education.
- This provider must:
- Develop a program with the intention of meeting the recommendations of the [Reparations Commission Report](#).
- Design and implement a marketing plan for the scholarship that ensures a surplus of high-quality applicants and promotes community investment.
- Track and report on the impact of the scholarships to encourage external investment.
- Disburse scholarship amounts to respective students and youth based on eligibility criteria.
- Scholarship disbursements must be determined by a specific measurement data point/benchmark that indicates impact of scholarship (ex: how they plan to spend the money, tuition, loans, other expenses)

 18. If any term or provision of this Agreement, or the application thereof to any person or circumstance shall, in any extent, be invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each term and provision shall be valid and enforceable to the fullest extent permitted by law.
