BID PACKAGE SPECIFICATIONS

The City of Providence is embarking upon a significant investment in our School buildings. This investment will enable the children of Providence to learn in safe, state of the art facilities. Given this large investment in the City’s future, and the importance of ensuring these projects are completed on-time, on/under budget and constructed as designed, the city would like to procure the services of an experienced Design Builder (DB) team. Based on years of community, student, and staff engagement on the condition of the city’s public-school buildings and resounding calls for major improvements, the next phase of PPSD’s facilities plan will prioritize a “newer and fewer” approach that has helped maximize school construction dollars and build 21st century learning facilities in the community.

Introduction

The City of Providence and Providence Public School District (PPSD) submitted a RIDE Stage II Necessity of School Construction Application in February 2024 (Phase 4), with an anticipated approval in May 2024. The Phase 4 projects are a continuation of the historic plan to rebuild the capital city’s schools. Many Providence schools were built over 100 years ago, and roughly half were built before World War II and suffer from wide-ranging deficiencies. With investments already underway in several schools, this next phase will result in at least 8 new or like-new school buildings across the District, dramatically increasing the number of students and educators in modern, welcoming facilities.

As part of this initiative the city is looking to design and construct Phase 4 projects that will renovate or replace existing deteriorating facilities with new school modern facilities. The selected DB team shall work closely with the city and Downes to develop a plan which shall include but not be limited to; early procurement items, budgeting, value engineering concepts, logistics, etc.

Note:

1. The project may be awarded to one or more qualified DB teams
2. All projects are subject to future approval of funding
