

CITY OF PROVIDENCE, RHODE ISLAND

**Department: Public Property**

**RFP Title: CITY HALL BUILDING ENCLOSURE CONDITION ASSESSMENT AND RESTORATION  
DESIGN SERVICES**

**Opening Date: 04/08/2024**

**Addendum #: 6**

**Issue Date: 04/04/2024**

The purpose of this addendum is to respond to vendor questions.

The City received the following question:

1. The RFP requests that commissioning services be provided. We wanted to verify what exactly this commissioning service would require since it is in the closeout phase.

City Response:

1. While commissioning typically tends to cover energy efficiency and other building system performance metrics, for this project we're looking for the commissioning services to validate the core goal of returning the City Hall envelope to a watertight condition.
