This Addendum No. 3, including all referenced attachments, modifies, amends, and supplements designated parts of the Contract Documents to the above-referenced project and shall be part of the Contract Documents as provided in the “Instructions to Bidders” for the above-referenced project.

Acknowledge receipt of this Addendum by inserting its number and date on page 00 41 00 – 1 of the Bid Form. Failure to do so may subject the Bidder to disqualification.

The Contract Documents are hereby modified, amended, and supplemented as follows:

SPECIFICATIONS

1. **SPECIFICATION 01046 – CONTROL OF WORK:** **ADD** the following paragraphs immediately after 1.03.C:

“1. Owner does not allow the use of temporary bypass after November 15th and before April 15th due to freezing concerns unless Owner and/or Engineer approval is received before implementing temporary bypass piping. If temporary bypass piping is approved, freeze protection must be provided and implemented.”

“2. No property shall be left on bypass for more than 24 hours. If a property is put on temporary bypass, the Contractor shall go back and complete the property the next day.”

2. **SPECIFICATION 03301 – CONCRETE AND REINFORCING STEEL:** In Paragraph 2.01.F, **DELETE** “Grade 40” in the first sentence and **REPLACE** with “Grade 60”.

QUESTIONS

1. **QUESTION:** In review of the service address list, it appears that many services will be on roadways with concrete road base. Can you add an item for concrete road base? Maybe 2 items Lump Sum for a Short Side and Lump Sum for a Long Side, or just 1 item by Square Yard.

RESPONSE: Restoration of trenched areas in roadways is included in the replacement bid items for the public side portion. Base course includes both granular and concrete as shown in the Construction Details in Appendix B.
