## **BID PACKAGE SPECIFICATIONS**

### **BACKGROUND**

The City of Providence, Rhode Island, is seeking vendors to manufacture and maintain decorative lighting attachments for streetlights at Wayland Sq. The City Council seeks to improve the aesthetics and illumination of the area for pedestrians and shoppers by adding illuminated decorative attachments for existing streetlamps.

### **PROJECT SCOPE**

The City of Providence is seeking fabricators to manufacture artistic lighting attachments for streetlights in the area around Wayland Square on the east side of Providence. The scope covers the manufacture and maintenance of 9 decorative lighting attachments to be mounted to the cobra-head street lights in Wayland Sq. These lights are meant to create a warmer atmosphere in the area, improve the general mood, and create an inviting space for pedestrians and shoppers. The actual streetlights themselves are already installed, this work would consist of manufacturing the decorative lighting attachments to connect to the existing lights. The City's streetlight contractor, C&K Electric, will perform the installation of the decorative elements.

Below are images showing the existing conditions in Wayland Sq. This is a heavily pedestrian area of the east side and has an acceptable baseline level of lighting but the City seeks to use the proposed lighting attachments to improve the warmth of the area during the evenings for pedestrians and shoppers. There are nine cobra head streetlights in the square itself and on the streets radiating from it, and the City would like to install decorative lighting attachments on each of the nine streetlights. The locations of the lights are shown in Fig 2.

Figure 3 shows the example decorative lighting elements which the City would like to emulate. As shown in the photo, lighting elements including warm lighting temperature, coiled rope lights, and gold baubles. The general concept for these attachments mirrors the way the City uses the illuminated snowflake lamp post attachments during the winter, see Figure 4. These elements should be designed to withstand all weather conditions, summer and winter alike. These decorative elements should be robust enough to last with relatively limited maintenance while being permanently installed outside.

These lighting attachments will be permanently installed, rather than seasonal, and bidders should include a lump sum fee for 10 years of maintenance to ensure the lighting attachments remain functional and are repaired as needed. The existing cobra head streetlights in the Wayland Sq area have pre-existing attachment points for electrical attachments such as these. The City has separately set aside funds for the installation of the elements in coordination with RI Energy.

The award of this contract in no way obligates the City to spend the corresponding estimated dollars. The City reserves the right to cancel this contract at any time with 30 day written notice.
