BID PACKAGE SPECIFICATIONS

Treatment and Recovery Support Infrastructure Enhancement Grants 2.0

The City of Providence's Department of Housing & Human Services (HHS) requests proposals for one-time infrastructure enhancements that will add long-term capacity for substance use treatment and recovery supports organizations in Providence between January 1, 2027, and December 31, 2027. This request is part of the City of Providence's Overdose Prevention Strategy, for which HHS is the implementation lead and which is funded by the City of Providence's Opioid Settlement Funds.

Questions about this RFP should be directed to Rachel Ferrara, DSW, Human Services Program Manager, at rferrara@providenceri.gov. Questions must be submitted in writing by 10/02/2026. Questions will be answered via a publicly posted addendum on 10/05/2026.

Background Information

The City of Providence Department of Housing & Human Services shall seek to improve the lives and living conditions of the City's low- and moderate-income residents. The Department shall support community-based strategies that build strong, vibrant, and stable neighborhoods, enhance opportunity and public health, and provide quality affordable housing throughout the City.

The Opioid Overdose Epidemic continues to affect the City of Providence disproportionately. In 2025, 81 individuals lost their lives to opioid overdoses in Providence. The rate of overdose fatalities in Providence has been the second highest in the State since 2017, except for 2018, when it was the highest in Rhode Island¹. Unfortunately, each life lost is a loved one, family member, or friend and preventable death.

During that same period, 2017-2025, there were reports of over 4,389 non-fatal overdoses in the City of Providence. In 2025, 368 non-fatal overdoses occurred, accounting for over 32% of statewide non-fatal overdoses;² Providence is home to 17% of Rhode Island's total population³. Additional risks and harms are associated with substance use disorder that impacts individuals, families, and the Providence community. The City of Providence is committed to implementing a comprehensive strategy to reduce overdose deaths and substance use-related harms.

The [City of Providence Overdose Prevention Strategy](#) aims to de-escalate substance-related harms, especially overdose, across the continuum of opioid risk using the framework below:

Guiding Principles:

1. Advance Health Equity
2. Address Social Determinants of Health
3. Build Community Capacity and Empowerment
4. Increase Coordination & Collaboration
5. Enhance Data-Driven Decision-Making

Strategic Priorities:

1. Promotion
2. Prevention

³ United States Census. (2020)

3. Rescue/Harm Reduction
4. Treatment
5. Recovery

This funding opportunity aligns with the Treatment and Recovery strategic priority:

Treatment - Create and maintain access points to the appropriate level of care for diverse populations that move toward a “No wrong door” approach. Support efforts to minimize structural barriers that limit admission to and successful completion of treatment.

Recovery - Increase recovery programming by implementing activities across multiple pathways of recovery; prioritize whole health and wellness. Collaborate with people with lived experience to build community and social connectedness for individuals at every stage of recovery.

Despite the urgency of the opioid crisis, a persistent quality chasm remains in the accessibility, availability, and effectiveness of treatment and recovery supports. Nationally and locally, the need for services outpaces system capacity due to structural barriers such as limited provider networks, underfunding, workforce shortages, stigma, and siloed care delivery^{4,5}. Only about one in six people who needed substance use treatment the U.S. receive treatment in 2025, and many do not receive care that is evidence-based, coordinated, or culturally responsive⁶. At the same time, many peer- and community-led recovery programs lack stable infrastructure, limiting their ability to expand services or sustain staff. Without intentional investment in facility, organizational, and workforce infrastructure, the local continuum of care remains fragmented and difficult to navigate. Closing these gaps requires one-time strategic investments to build long-term capacity across treatment and recovery systems, ensuring that all Providence residents, especially those in underserved communities, can access and complete high-quality, evidence-based care.

This funding opportunity seeks to reduce the incidence of overdose and other adverse substance-related outcomes in the City of Providence by:

1. Enhancing the long-term capacity of treatment and recovery support programs for people with opioid use disorder, stimulant use disorder, and related co-occurring conditions.
2. Increasing treatment and recovery support utilization, engagement, and completion among unserved and underserved populations by expanding access and reducing barriers to deliver high-quality, evidence-based substance use treatment and recovery supports.

Scope of Work

In its efforts to address the opioid overdose crisis and other substance-related harms, the City of Providence Department of Housing and Human Services (HHS) seeks one-time infrastructure enhancements that will add long-term capacity for substance use treatment and recovery supports organizations in Providence. Eligible proposals must address one or more of the following categories:

1. **Facility Capacity:** Capital renovations or updates to expand capacity to provide existing evidence-based practices, including upgrades to ensure compliance under the Americans with Disabilities Act (ADA) standards, and modifications necessary to implement new evidence-based programs.

2. **Organizational Capacity:** One-time investments in technology, tools, and infrastructure that support the implementation of evidence-based programs (e.g., software, durable supplies, IT systems, and materials from program developers).
3. **Staffing Capacity:** One-time investments to expand the number of trained or certified staff able to implement existing and new evidence-based practices, including training, certifications, and professional development.

Competitive projects must demonstrate how the proposed project will enhance long-term capacity to provide specific evidence-based substance use treatment and recovery support, focusing on expanding access to unserved and underserved populations.

- Submit reimbursement invoices to HHS accompanied by detailed back-up documentation to substantiate expenses incurred on an agreed upon schedule.
